100,000 COMING TO TOWNSHIP, PLANNERS TOLD

Washington Township will gain close to 100,000 new residents in the next 10 years, and the County Planning Commission this week was warned to get ready for them.

The warning came in the form of a report from John Jay Thomas, executive secretary for the commission. The report was prepared at the request of Commission Chairman R. J. Wright of Irvington.

Said Thomas:

1. The Commission ought to establish stiff policies to make subdividers widen streets in forthcoming tracts.

2. The County should acquire rights-of-way in Washington Township before the building boom makes them too expensive to purchase.

Thomas' report warned throughout that county officialdom must not risk further delay, since an avalanche of residential construction is poised to fall on the Township.

He prefaced his comments by predicting another 250,000 population for Alameda County by 1970, and added: on the basis of areas already built up and land available, at least one-third of this increase will come to Washington Township.

The planning expert forsees "new single-family residential neighborhoods around the existing Township communities," most of the residents using the East Shore Freeway to commute to Oakland or San Leandro.

Thomas cited Eden Township's present "haphazard, costly and inefficient traffic situation" as a direct outcome of "failure to plan" after World War II. Then cautioned:

"Necessary rights-of-way (in Washington Township) can only be preserved and achieved through (Planning Commission) policy setting forth design standards for roads (and feeders) far in advance of actual construction."

He digressed to compliment local Chambers of Commerce for "orienting current action" toward goals of wise planning.

In one way, Thomas continued, Washington Township is fortunate, since it appears to be developing directly from an agricultural area to one of large subdivisions. This makes broad-gauge planning easier, he says.

Thus an easy way to acquire rights-of-way, he explained, is to have the subdivider dedicate streets as he builds. In the case of a tract now under construction on Blacow Road by James R. Meyer of San Leandro, Meyer has deeded the county a 55-foot strip so Blacow Road eventually can be made into a 75-foot, four-lane divided highway.

Thomas ended his report with a plea for swift action on rights-of-way policy by the commission.

Today Wright said he feels certain this policy will be established within a short time after the commission studies Thomas' report.

THIRD MAN THEME SOUR IN NEWARK

Newark is all but aflame over the issue of a third fireman.

Monday night the town's fire commission met to consider a report from Fire Chief Joseph E. Pashote that the two paid firemen now (1) must work as much as 84 hours per week, and (2) perform vital inspections on days off.

Members of the Newark Chamber of Commerce also want a third fireman, since this will cut insurance rates by 10 per cent, they claim.

However, Commissioner Tony Martin reportedly opposes the idea. Commissioner Jake Springer is reported to favor it, while Commissioner Frank Pine is said to be undecided.

This commission split thus far has stymied any action.

NILES STEEL MILL OPENS THIRD BIG FURNACE SOON

A third open-hearth furnace will be opened early in July by the giant Pacific States Steel Corporation mill at Niles.

This was learned today as a 200-foot smokestack was added to the open-hearth building at the mill.

The new furnace will boost Pacific States' steel-making capacity by 70,000 tons per year. The two 150-ton open-hearths now in use each produce that amount of the vital metal.

Employment, now running at the 475 mark, will be at once raised by around 20 jobs, it also was learned. However, the increased productivity of steel means that many more jobs will be opened shortly in the rolling mill.

Exact number of these new jobs could not be determined immediately.

The company did not release any figures showing cost of the new open-hearth furnace, but comparable furnaces in other mills cost well into seven figures.

Construction of the new open-hearth unit has been underway for some time.

MYSTERY MAN WAS ONCE A CANADIAN

Did you have any doubt that last week's "man of the week" was George Roeding?

From the clues below, see if you can identify this week's mystery man. If not, look through the pages of this issue. You will find the answer.

He was born in Del Norte County and grew up among the Indians, as his parents had homesteaded property formerly used as an Indian reservation.

When he was a boy he remembers U. S. soldiers stationed nearby to quell occasional Indian uprisings.

From there he went to San Jose and held a position as a stenographer in a real estate office.

From San Jose, he went to Alberta, Canada, with his father, who, being a Canadian citizen, was able to homestead two sections of land there.

He was a dairy rancher in Merced County, and later worked for the Sunmaid Raisin Association as an accountant.

He came to Niles to work for the California Nursery, starting out as an accountaint and later working as advertising manager.

During World War II, he took a position with Pacific States Steel in charge of the payroll..

It was after that that he took the position he now has held with a local firm for eight years.

His hobby has become almost a business with him. He has become so proficient in it that he has written articles in Sunset Magazine concerning it, and also wrote scripts for the radio during 1936. He is considered the outstanding amateur in his field in California.

He is a music lover, and will go any distance to hear a good concert. He is also very proficient in contract bridge.

Guess who.

NO. 5: NEWARK OKS SURVEY BUT RAPS INCORPORATION

A township "home rule" survey won support from a fifth community this week, but with crippling reservations.

Newark's Chamber of Commerce agreed to back a survey of township-wide incorporation already endorsed by Centerville, Irvington, Niles and Mission San Jose.

"But no matter what the outcome of the survey is, we won't approve incorporation," promised a majority of chamber members, including Gordon Cotton, Joe Nuland, Frank Veit and Ray Truscott.

The Newarkers explained they fear loss of control over their fire, water, sanitary and similar districts.

"We don't want to lose Newark's identity," they declared at a meeting in the local Youth Center.

However, the chamber did endorse the survey, which is being investigated by LeRoy Broun of the Centerville chamber.

The Township Chamber of Commerce Wednesday night indicated it will await action from Alvarado and Warm Springs before proceeding. So far, only Decoto has refused to endorse the investigation to incorporate local communities into one civic entity like a city.

FLOOD-CONTROL PROBE AT NEWARK

A committee to explore formation of a flood-control district was named Tuesday by President Ken Foster of the Newark Chamber of Commerce.

Foster asked the committee to meet with County Engineer Wallace Boggs in an effort to see how local drainage problems can be solved through a district such as Eden Township communities have formed.

Serving on the group are Gordon Cotton, chairman; Joe Nuland, E. B. Hodges and Frank X. Veit.

When the issue came up the following night before the Township Chamber, Secretary Eugene Manning explained work on control of floods from Alameda Creek has been at a standstill since the Korean War cut off survey appropriations to the Army Engineers.

Nevertheless, Manning promised to check up on status of flood curbs and drainage restrictions which are blocking a number of subdivisions here.

The Chamber also:

1. Learned county street lights will be installed shortly at Thornton and Arden.

2. Heard a promise of cooperation in obtaining door-to-door mail delivery from Postmistress Julia Harris.

Two Lose Licenses

Two local drivers lost their licenses this week, according to the State Department of Motor Vehicles.

Joe C. Alves of Alvarado drew a suspension for failure to post insurance after an accident; and Robert L. Rangel, 979 First Street, Niles, took a suspension for drunken driving.

NOT IN THE SCRIPT . . . Sam Scott, president of the Washington High board of trustees, gets unscheduled kiss from his graduating daughter, Emily Jane, as Scott hands out diplomas last week to 130 senior students. At right is High School Vice Principal Warren Gravestock. A crowd of 2000 witnessed impressive graduation exercises on the school athletic field and heard student speakers proclaim the class of 1952 ready to meet life's challenges. (Ken Foster Photo)

TOP HONORS TO WUHS STUDENTS

Five scholarships were presented to outstanding students in the class of 143 graduated from Washington Union High School last week.

Recipients were Bonnie Anderson, Niles, scholarship from the P.T.A.; Patricia Collins, Newark, College of Holy Names; Elizabeth Flores, Alvarado, Delta Kappa Gamma; Janice Harlan, Centerville, Centerville Lion Club; and Bryce Phillips, Irvington, Niles Rotary Club.

Life memberships in the California Scholarship Federation were presented to Elizabeth Flores, Audrey Turnbow, Ernest Kinzli, Bryce Phillips, Bonnie Anderson and Barbara Manning.

Achievement awards went to Bonnie Anderson and Ernest Kinzli. Marlene Peeks and Theodora Moura received four-year perfect attendance certificates.

CENTERVILLE TRACT OPENING SUNDAY

Glenmoor Gardens, a projected 600-home subdivision on Central Avenue east of Blacow Road, will have its first model-home showing Sunday, according to James R. Meyer, president of Glenmoor Homes, Inc.

Meyer, a San Leandro developer, today said he has sold 21 of the 31 homes already under construction. Future plans include a shopping center, park, playgrounds and an elementary school.

Meyer's homes are in the $12,000-to-$17,500 class, contain three bedrooms, plus a number of extra features. Builder-installed streets, sidewalks and curbs are a special attraction.

TRAILER COURT GATHERS BUSINESS BACKING IN NILES; SHOWDOWN AHEAD

Businessman sentiment for a trailer court at the mouth of Niles Canyon appeared to be building up here this week.

The Niles Merchants Association, meeting Tuesday morning, authorized a poll of every merchant in town to see if they favor an announced $50,000 court, which would provide space for 150 trailers.

And the Niles Chamber of Commerce a few hours later hinted it might go along, provided the trailer-yard is properly built and regulated.

Results of the poll were announced as: 45 favoring the trailer court, two opposed.

The project originally had been opposed by the Niles Womens Club, which wanted to use the site for a park. And even if the court—proposed by E. C. Thomas, steel mill executive—is okehed by the merchants and businessmen, it still must clear a major hurdle at a County Planning Commission hearing next Wednesday.

Thomas appeared at the merchants' breakfast in Nello's to ask support. He promised the court will have (1) sewer connections for each trailer, (2) fences, (3) blacktop driveways serving the trailers, (4) strict maintenance to conform with county regulations.

He stressed that alhough he has leased the property from the City of San Francisco, he still must obtain a new permit from Alameda County each year to run the trailer court.

"It's like putting 100 or 150 homes here," agreed Walter Chrysler, director of the association. "I don't think a public park there would be nearly as good. It would attract undesirables down from Oakland."

"It would provide needed housing for industry and for migratory workers," put in M. A. McDermott.

President E. C. Parks added he thinks the Township ought to have a master park plan and build its recreational areas accordingly, "not piecemeal." He said he believes schools and sanitary facilities ought to get priority in tax plans over single parks.

Parks pointed out that although 27 civic groups have endorsed a publicly-supported park on the site, no concrete plan for a publicly-supported district to acquire and maintain this park ever has come to flower.

At the Chamber session, President Peter Juhl commented that no one present knew enough about county regulations governing trailer courts. He asked Secretary Vernon Ellsworth to find out and report next week so the Chamber may act one way or the other. Thomas is slated to be on hand for this meeting.

NO PLUGS? PAGE OPERATOR K-9

Twenty-two hundred feet is a long distance between fireplugs.

And Eugene Manning, Centerville Chamber of Commerce member, is dog-goned if he's going to put up with it.

Manning told the Chamber Monday he thinks the State Division of Highways is acting like a mastiff in the manger in preventing Centerville from putting more plugs along Thornton Avenue.

The State bureau claims it needs time to make up its mind where it wants to put the Freeway "feeder" before permitting extra plugs. CUR-RENTLY the feeder is planned for Thornton.

Manning thinks the department is barking up the wrong tree. He says Elm, Stevens and Allen Court are plug-less and that it is 2200 feet between those that Thornton residents can depend on now.

Doggedly pressing his point, Manning persuaded the chamber to protest by letter to the State bureau.

VACATION BIBLE SCHOOL

The Centerville Presbyterian Church will hold its annual Vacation Bible School for fifth to eighth graders starting Monday, June 23, at 9 a.m. Awards will be given for perfect attendance and for bringing new students.

ASK 25 CENTS PER TON TO STABILIZE APRICOT PRICES

Apricot growers in Southern Alameda County this week were asked to contribute 25 cents a ton toward stabilizing production and prices.

The appeal came from Cruz Venstrom, director of the deciduous fruit department of the California Farm Bureau Federation. Venstrom spoke to two-score growers and their wives in Washington High cafeteria.

Venstrom explained the voluntary assessment is expected to raise around $4000 on a statewide basis to support one marketing expert during a three- or four-month period. This man will analyze prices, grades of fruit, area variations—"whatever bothers you," the Farm Bureau official declared.

Then scientific recommendations can be made, he concluded.

Venstrom said the plan to engage the market expert was arrived at after the Farm Bureau Federation's apricot section had considered and rejected (1) a marketing agreement, legally binding on minority non-signers, (2) a price-setting organization such as cling peach growers maintain, and (3) an every-man-for-himself program.

"Next year we'll find out if you want to maintain a man for the full year," Venstrom said. He said Tracy growers have signed en masse for the 25-cent levy.

As for the crop outlook for 1952, Venstrom reported:

1. The state's tonnage will be around 155,000 tons, compared to 172,000 last year.

2. Prices will be about the same. Earlier purchases by canneries at Winters last week were between $100 and $105 per ton, "then the canners pulled out."

3. Peaches and pineapple—a factor in fruit cocktail sales along with apricots—are having bumper crops this year, although the peach growers are limiting their pack to 14,000,000 cases through a 15 per cent "green drop."

Local 'cot growers told Venstrom rains have cut expected yield to less than 40 per cent of last year's harvest. They also fear a labor shortage when picking starts in about three weeks because of San Joaquin Valley harvests at the same time.

Venstrom asked those interested in signing the agreement to pay the marketing representative to contact Roy Clark of Irvington.

FOUR DIE AS CARS CRASH HEADON AT NILES UNDERPASS

Four members of one San Jose family were killed Sunday when their station-wagon smashed head-on into a heavy sedan just north of the Southern Pacific underpass on the Niles-Hayward highway.

The victims died when their car, northbound to a parade in San Lorenzo, was struck by one driven by Raymond Moughon, 46, of 280 Jones Way, Niles, a steel worker.

Dead were Henrique Bettencourt, 63, sexton of a San Jose Catholic church; Theresa Bettencourt, 23, his daughter; Mary Ribeiro, 78, his cousin; and David Aguiar, 5, his grandson.

Moughon suffered cuts, bruises and several broken ribs, but was released after treatment at Fairmont Hospital.

No charges were filed pending further investigation and a coroner's inquest, Highway Patrol officers said.

From evidence at the scene, officers deducted that Moughon, southbound in the middle lane of the three-lane highway, met the Bettencourt car which was coming north on an inside lane of the four-lane highway. The two vehicles hurtled together where the four lanes narrow into three. The impact stopped the light station wagon and hurtled it backward.

The Bettencourts were en route to San Lorenzo Village, where Bettencourt's son, Thomas, was taking part in a parade celebrating the opening of a new link in the East Shore Freeway. Thomas is a trainee at Parks Air Force Base.

Funeral services for the four victims were held this week in San Jose.

'52 CHEST GOAL SET AT $9000

A 1952 Community Chest budget of $9,000 for Washington Township was given tentative approval Wednesday by Chest directors.

Acting President Allen G. Norris announced the budget is $800 more than for 1951 due to additional demands from youth agencies.

The Chest this year will join the East Bay United Fund appeal, set for the first week in October.

Norris also named a committee to nominate new officers for the coming year. Headed by Warren Gravestock, the committee includes Mrs. Ann Mayock, Maurice Marks, Ed Enos, Bernard Joseph and Sam G. Scott.

ST. JUDE'S APPOINTS NEW COMMITTEES

The Past Presidents Club of St. Jude's Institute, No. 163, met Tuesday at the home of Anne Rose, with Mae Avilla presiding.

The following committee chairmen were appointed for the year: Beatrice Enos, scrap book; Anne Perry, publicity; and Bertha Rose, libraran.

NELLIE FINED $100 IN CORPSE THEFT

Nellie de la Cruz, 34, Alvarado cafe owner, last Friday was fined $100 after being convicted of stealing $5 from a corpse.

Mrs. de la Cruz, arrested early in May for filching the money from the purse of a dead acquaintance, appeared before Judge Allen G. Norris.

The trial was featured by:

1. Refusal of a witness to admit he associated with the dead woman "on the grounds it might tend to incriminate and degrade" him.

2. Exchange of sarcasm between Mrs. de la Cruz' attorney, Edward Plotner of Oakland, and Deputy Sheriff Bud Fall.

The reluctant witness, Manuel Jiminez, 32, of Newark, was identified by sheriff's reports as the man who brought Mae Anchita, dying of a heart attack, to Mrs. de la Cruz' cafe.

But when the prosecution asked if he had given the $5 to Mrs. Anchita earlier, Jiminez tightened up and refused to reply on what he termed "constitutional" grounds.

Judge Norris recessed the court and after a search of law books by both sides, ruled Jiminez must answer. Jiminez then said he had given Mrs. Anchita the money.

It was this money that Mrs. de la Cruz was charged with stealing.

"Jiminez told me to get the money out of the purse and hide it or he and Mae would get into trouble," explained the Alvarado woman.

But the Judge ruled it a bona-fide theft, then imposed the fine.

During the trial, Plotner asked Deputy Fall, one of the arresting officers:

"You hate Mrs. de la Cruz, don't you?"

Replied Fall, subject of lengthy cross-examination by Plotner:

"I don't dislike her any more than I dislike you."

Gas and electricity are cheap in California!

In Richmond's new 13 acre Civic Center are the City Hall, Library, Auditorium and Hall of Justice

Take RICHMOND for example:
Typical residential gas and electric bill
In Richmond $8.76
In all U.S. cities of similar size* . . . $16.02
* Average for the 20 U.S. cities outside California between 85,000 and 100,000 population. Based on a typical use of 100 kilowatt hours and 100 therms of gas per month.

P. G. and E. home rates are far below U.S. average!
The cost of living has nearly doubled since 1940, but P. G. and E. domestic rates are actually lower than they were then! Nothing else you buy costs so little—does so much. Let P. G. and E.'s bargain gas and electricity do more of your work, bring you more of life's comforts.

TWIRLER GIVES 'CATS WIN, 11-0

By TONY ROGERS

It was Harvey Hernandez versus a San Francisco Naval Shipyard nine here last Sunday, and Hernandez pitched a two-hit shutout to give Centerville's Bearcats an 11-0 victory and their fourth win in five starts this season.

Hernandez limited the Riveters to a pair of singles, fanned 13 and walked only two. And if that wasn't enough, he poled out a long home run and two singles in four chances at bat, bringing in three runs.

The slugging pitcher's teammates gave him plenty of help, chalking up seven more hits for a total of 10 and tightening their fielding while taking advantage of five Shipyard errors.

Don Lemos connected for a double and a single, while Bud Marshall banged out a pair of single-baggers.

A snappy double-play from Bettencourt at third to Roderick at first ended the Bearcats' most impressive effort thus far on an appropriately high note.

The 'Cats play Vallejo Oaks Sunday at 2 p.m. on the Washington High diamond.

Box score:

NEWARK'S REC' DISTRICT WINS NOD

Endorsement of the proposed Newark Recreation District was voted Tuesday by the town's chamber of commerce.

The chamber enthusiastically backed the plan to present a district to local voters following a July 31 mass meeting.

The district could levy a 25-tax if passed, with the maximum 50 cents. It would provide parks and other facilities which surveys show Newark lacks.

Chamber President Ken Foster was informed the county's superior court, which must pass on the plan, has been apprised of it.

TOWNSHIP HUSKIES LOSE IN NINTH TO SANTA CRUZ JR. SEAHAWKS, 4-3

By BOB HIRD

The Washington Township Huskies dropped their first contest of summer ball Sunday as they were edged by the Junior Seahawks at Santa Cruz, 4-3.

The last half of the ninth spelled defeat for the Huskies.

With the score knotted at 3 all, the Seahawks' first batter in the ninth rapped out a long double down the left field line. Then on the first pitch to the next Santa Cruz man, a hard smash over second brought the winning run in.

The score was tied 0-0 at the end of the third. In the top of the 4th a base hit by John Chacon started a Husky rally. Chacon was sacrificed to second by Bob Hird and brought home on a timely hit by Tony Nieves.

In the sixth, the Canines socked one more to lead 2-0. In the bottom of the sixth the Seahawks bunched 3 hits off Pitcher Hird for 3 runs. Four Husky errors aided the rally

AMER. FORGE WINS OVER V.F.W., 9-0

The American Forge team, behind the pitching and hitting of Marcus Galvan, Wednesday night swamped Irvington Veterans of Foreign Wars, 9-0, in the second contest of the 1952 softball league.

Galvan tossed a two-hitter, while striking out 11 and walking one. He also smashed out two hits, one a triple.

Taylor's Swim Classes

A swimming school taught by Jud Taylor, Washington High coach, starts Monday at Elderberry Park.

Taylor, former director at the Oakland Boy Scout Camp, will give lessons—for a fee—to non-swimmers and to youngsters who want to improve their technique.

Reservations for either class can be made by phoning Taylor at Newark 3-3937, or by coming to the park pool before 11 a.m.

Taylor this week attended the annual Stanford Football Clinic.

There are 1,186,023 acres of pine forest land in California's tree farm system, more than in any other state.

HAWAIIAN NIGHT . . . Loath to bid Aloha to the South Seas decor of the Washington High Senior Ball last Friday are (left to right) Charles E. Harrison Jr. and Jo Ann Lewis of Newark, Jack Ferraris of Centerville, and Ida Paniagua of Decoto. Seniors and their dates danced until dawn (almost) amid cocoanut palms, native huts and even a smoking volcano. (Register Photo)

ODOM, PINE WIN SPORT FISH DERBY

Choppy seas off the Golden Gate last Saturday yielded a rich haul of salmon for 16 members of the Niles Sportsmen's Club.

Bud Odom and William Pine shared top honors for the day when each landed a shining 17-pound beauty.

The other fishermen split up 10 smaller salmon.

The event marked the club's annual Salmon Derby.

SPORTSMEN'S SHOOT

The Niles Sportsmen have scheduled a ham-and-bacon shoot for July 17 on the club grounds between Niles and Mission San Jose.

This announcement came today from John Musgrove, chairman for the shoot. Futher details will be announced.

ST. JAMES EPISCOPAL CHURCH

Services June 22, second Sunday after Trinity:

Holy Communion, 8 a.m.
Church School, 9:45 a.m.
Prayer and Sermon, 11 a.m.

A nursery is provided at the rectory during the 11 o'clock service.

"Coffee Hour" at the close of the service.

Rev. Arthur Freeman, Recor

Clark New C.C.C. Chief

Centerville had a new Chamber of Commerce president this week with a minimum of parliamentary action.

Jack Coley, former president, was transferred to San Jose by Safeway Stores, for which Coley works.

On Monday, William Clark, vice-president of the civic body, assumed Coley's place.

PIPE AND STEEL IN SOFTBALL WIN, 6-2

Softball under the lights started out with a bang Monday as U. S. Pipe and Foundry defeated Olwell Berry Farm, 6-2.

A crowd of 200 watched the christening of the new league.

Olwell, made up of a bunch of Township Nisei boys, showed speed afield but little hitting power.

The U. S. Pipe club exhibited a good infield and a strong battery in Pitcher Pelio Reyna and Catcher Len Smith.

The Pipe team started fast and scored in the first frame.

In the second, aided by 3 walks and 2 hits, the Pipemen garnered 3 runs to lead 4-0. John Reynolds doubled.

In the third, aided by another double from Reynolds, the Pipes scored again to lead 5-0.

In the fifth, a pair of doubles by Tony Homen and John Sanchez produced the final tally for the U. S. Pipe team.

The Berry Pickers picked up a pair in the sixth off hits by Ted Sakigahama, Pub Hanamoto and Tubby Tushahara.

ways to be a friendly telephone neighbor

If yours is a party-line, your telephone neighbors will consider you a real friend if you'll keep these simple points in mind: Try not to tie up the line with lengthy conversations. That way you won't miss important incoming calls. Ask the youngsters to be considerate, too. When they remember that others may be waiting to use the line they're being good party-line neighbors. Always be sure you hang up properly after calling. These simple suggestions mean still better service . . . because they give every one a better chance to receive and make calls.

emergency calls may arise while you're on the line. If a telephone neighbor breaks in and explains the emergency, it's always thoughtful to hang up and complete your call later.

THE CHRYSLER NEW YORKER CONVERTIBLE
(This body style also available in Windsor DeLuxe with Spitfire Engine.)
White side-wall tires at extra cost.

ITS ENGINE ADDS MUSCLE TO EVERY DROP OF GAS!

To many owners, the mighty 180 H.P. V-8 engine that powers the Chrysler New Yorker is the most remarkable feature of this remarkable car. It is certainly the most discussed automobile engine in many, many years.

This is the engine with hemispherical combustion chambers . . . the engine that gets *more power* out of every drop of gas. And non-premium gas at that!

Actually, it puts you in control of more power than you'll probably ever need use. You'll sense this . . . together with its unequaled response . . . the very first yards you drive. It runs smoother, more quietly, and with less wear than any other engine ever built into an American automobile.

. . . and it makes driving (both cruising and the short runs) *more fun* than you have ever known it to be!

But that's not all. Along with this engine there are scores of other reasons, too, for driving a New Yorker before resolving on any new car. Like Full-time Power Steering that makes steering *five times* easier . . . and your control *five times* greater . . . than in ordinary cars. Like Power Brakes that cut needed pedal pressure by as much as two-thirds.

Like Oriflow shock absorbers that make even bad roads feel "newly paved" . . . restful chair-high seats . . . big, wide-opening doors . . . big windows that let you *see* more.

It's true . . . until you *drive* a Chrysler New Yorker you won't know what you're missing. Why not stop in today?

NEWARK OK'S ROUTE BEYOND THORNTON

Centerville's suggestion of a less populated area for the Freeway "feeder" now planned for Thornton Avenue this week met with approval from the Newark Chamber of Commerce.

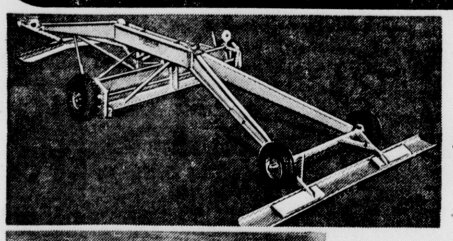
A Centerville Chamber committee headed by Louis Cardoza last week proposed to detour the "feeder" about one-quarter mile north of Thornton through fields and orchards, thence down Mayhew Landing Road to the Dumbarton Highway.

Tuesday night, the Newark Chamber of Commerce endorsed the plan and so informed Centerville by letter. Newark sentiment indicated a feeder along Thornton would split Newark's business district and cause traffic troubles.

Gordon Cotton suggested Baine Avenue as another route, but it was pointed out this would bisect Centerville's business section.

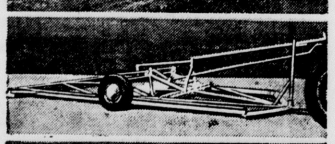
The Centerville Chamber intends to present the alternate to the State Division of Highways through the County Planning Commission.

Eversman AUTOMATIC LAND LEVELER AND HYDRAULIC SCRAPER

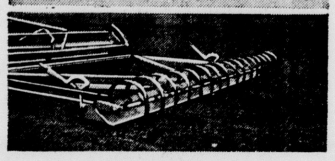


TWO Machines in One

Hydraulic Models
for Wheel Tractors
Small and Large Crawlers
Light Draft
Large Capacity
Short Turning Radius



Mechanical Models
for Two Plow and Three Plow Tractors
Springtooth Attachment Available for Models 9, 12 and 289



Plan now to use an Eversman this FALL for needed leveling and dirt moving. Fill those pot holes and gullies—improve drainage. Now you can level and harrow in the same operation with the new Eversman springtooth attachment. Saves a separate harrowing—will ridge fields to prevent blowing—produces a superior seed bed, especially for winter wheat.

Exclusive Feature All Models. Wheels at ends of blade, feel out the **high places** and **low places** and move the blade up and down AUTOMATICALLY to cut and fill.

B. P. W. Honors Traveling Members

Four members of the Business and Professional Women's Club were honored at the last meeting of the season, held at the home of Mrs. Henry Enos.

The four, all traveling to different parts of the globe, were Audrey Carmody and Rosalyn Egan, Hawaii bound; Mrs. Lee Hyde, off to Europe; and Miss Lois Nicholson, leaving for New York City.

Miss Egan and Miss Carmody left yesterday (Thursday) by plane for Hawaii, Miss Egan to be gone of three weeks and Miss Carmody to spend the summer studying at the University of Hawaii.

Mrs. Hyde, a teacher at Washington High, as is Miss Carmody, will sail on the Queen Elizabeth from New York, for a six weeks' tour of Europe. Accompanied by her sister, she will visit relatives in Germany and in Denmark.

In the South

Mr. and Mrs. John Freitas Sr. of Newark have been in Southern California visiting their daughter, Mrs. Eleanor Millan. While there they spent a few days at Catalina Island.

In Alaska

Mr. L. H. Whitaker and his daughter, Marilyn, of Niles, left last Thursday for a trip to the northwest. Upon arriving in Seattle they took a boat that will take them on up to Alaska. Their plans call for a two weeks' stay.

Graduation Open-House

Mr. and Mrs. John Santos held "open-house" for their daughter, Pat, on graduation night, at their home on Norris Road. Pat was graduated from Washington High. Relatives and close friends called during the evening to congratulate the happy graduate.

JUST MARRIED . . . the former Dolores Quartaroli and her bridegroom, Robert Anderson, leaving Corpus Christi Church after exchanging wedding vows last Sunday. (Ken Foster Photo)

OVER 150 GUESTS ATTEND WEDDING OF DOLORES QUARTAROLI, ROBERT ANDERSON

Sunny skies, a lovely garden, and a convivial crowd combined to make a memorable wedding reception for last Sunday's bride and groom, Dolores Quartaroli and Robert Anderson. The reception was held at the home of her mother, Mrs. Peter Quartaroli, following the ceremony performed at Corpus Christi Church in Niles. About 150 guests were present.

Given away in marriage by her uncle, Mr. Bert Guilianelli of Millbrae, the bride walked down the aisle of the white flower-bedecked church in a light-weight grey wool suit, carrying a white prayer book and white orchid. Her costume was completed with a pink hat.

Her maid of honor, Jacque Biale, was in a light green suit, wearing a white hat and an orchid corsage.

Mrs. Quartaroli selected a steel grey pure silk suit for her daughter's wedding and with it wore a pink hat and orchid corsage.

Mrs. Gustave Anderson, the bridegroom's mother, was in a navy blue redingote, pink hat, and also wore an orchid corsage.

The bride's cousin, Leonard Smith, had the best man role.

After a two weeks' honeymoon in Southern California, the pair will return to Niles to make their temporary home with the bride's mother.

The benedict is employed at Pacific States Steel. His bride has been employed in the offices of the new county building in Centerville.

Wedding Bells

Married in Reno over the weekend were Joanne Harlan, daughter of Mrs. Mary Von Rothenhausler of Centerville, and Willie Funk, also of Centerville.

The newlyweds are honeymooning at Russian River this week.

Joanne, a graduate from Washington High with the class of '51, has been a student at the nursing school in San Jose. Willie, also a graduate of the class of '51, has been attending Santa Clara University.

BIDDLE, RUSSELL WIN PARTY JOBS

A Newark crash victim and a Niles builder polled top and near-top votes in races for their party's central committees, it was disclosed this week by final returns from the June 3 primary.

Arthur T. Biddle, hospitalized since May 1 as a result of a collision near his home, garnered 15,506 votes for one of five places on the 13th District Republican Central Committee. Biddle led the GOP slate.

Charles A. Russell of Niles racked up 19,693 votes to take second spot on the Democratic Central Committee ticket.

Others elected were: (Republican)—Herbert F. Way, John J. Amard, Mrs. Olive Sheets. (Democrat)—Morgan Anderson, Raymond Cooke, Chloe Johnson, Wilbur Weoman.

A Point of View

Local couples who attended a Sunday barbecue given by members of a bridge club for their husbands at the Hugh Munro place on Skyline Boulevard last Sunday included the R. Cozzis, the John Brahmsts, Henry Vervaises, Bain Leasks, and Ella Jolliff and her brother, Marcel Sullivan.

After a strenuous game of baseball, participated in by the men and women alike, the crowd enjoyed a steak feast.

The Munros, located at a very high point on Skyline, have a VIEW. Bain Leask, it is reported, claims to have seen the siren on the new Niles fire house!

SLETTENS SELL GILROY BRANCH

Sale of their Gilroy store was announced today in Niles by the management of Sletten's Department Store chain.

W. E. Sletten, senior member of the firm, said the Gilroy establishment was sold June 2 to merchants from Reno and Banning.

He explained he intends to devote his attention to the Niles store and to the remaining branch at Pleasanton, which will be managed by his son, Jerry.

Sletten said his decision to sell the Gilroy store branch was dictated by the difficulty of managing it by remote control.

Former Niles Man Married at Stanford

A former localite, Charles Jelleff II, was married at the Stanford Memorial Church last Saturday to Janice Burke Allison.

Several township people attended the wedding including Mr. Jelleff's grandfather, Mr. Philip Moore, and Mr. and Mrs. Max Stevenson, Mr. and Mrs. Wally Ebright Sr., Mr. and Mrs. Wally Ebright Jr., Mrs. Ann Ebright, Mrs. Martha Barker and David Barker.

The bridegroom, who attended elementary school here and Washington High, is now studying mechanical engineering at Stanford. The newlyweds will live in Palo Alto.

Newark Woman is Honored at Shower

Mrs. Alex de Knoop of Newark was honored at a stork shower, given by Mrs. Glen Mohn, at the Mohn residence in Niles, on June 16.

Pink and white table and house decorations set the tempo for the party, which was enjoyed by the following guests: Mmes. James Dias, Carl Mohn, Sam Anderson, Julia Honeyseth, Donald Dias, Carl Pierce, Virgilio Cheda, Allen Sanders, Howard Mohn, Richard Farrington and Roger Riechart.

Sending gifts but unable to attend were Mmes. Wess Sears, John Schilling, Harold McDermott, Nick Minchakovich and Harry Becker.

Mrs. Zwissig Plans Hawaiian Vacation

Mrs. Mariam Zwissig, who plans to sail to Hawaii June 28 (providing the Lurline sails on that date), has been honored at a round of bon voyage parties.

Mrs. LeRoy Broun of Centerville was hostess at a party for the bridge club of which Mrs. Zwissig is a member, and the Hawaiian theme was carried out in decorations and refreshments.

Another party in Mrs. Zwissig's honor was given at the home of Miss Gertrude Keller. This was attended by the Catholic Women's Guild, and took the form of a handkerchief shower.

Former Localite Exhibits in S. F.

Friends of Mr. and Mrs. Willard Rosenquist, former Niles residents, have received announcements of a showing of Mr. Rosenquist's water colors and drawings at the Raymond galleries at 701 Sutter Street from June 10 to July 7.

Mr. Rosenquist is in the art department at the University of California. He and Mrs. Rosenquist are planning a European tour this coming fall.

Shower Honors Irvington Woman

Mrs. Georgina Costa of Irvington was the honoree at a stork shower given last Friday by Mrs. Caroline Brown at her home at 149 Joseph Street, Centerville.

The table decor was carried out in the traditional pink and blue, with table favors appropriate for the occasion.

Those attending were: Mmes, Adeline Brown, Elsie Amaral, Mae Rogers, Lorraine Francis, Elsie Rogers, Vivian Costa, Louise Perry, Carla Perry, Mary Perry, Belle Sylvia, Beverly Souza, Josephine Soito, Barbara Button, Josephine Agfiuiar, Jennie Marks, Dora Umbstead, and Miss Mary Villescaz.

Unable to attend but sending gifts were Mmes. Linda Kraft, Doris Rego, Florence Rodriguez, Evelyn Santana, Mary Bettencourt, Mary Gularte, Margaret Gemignani, Clara Faria, Mary Dobbs, Vee Amaral and Corinne Hetrick.

Robertsons in Oklahoma

Mr. and Mrs. Gus Robertson and family of Irvington left last Friday for a trip to Arkansas and Oklahoma to visit relatives. They plan to be gone a month.

New Residents

The Noel P. Glovers have moved to Niles from Oakland and are living at 222 Stenhammer Drive, Canyon Heights. Mr. Glover is pastor of the Baptist Church in Niles.

Their 12-year-old son, Terry, will enroll at the Niles school next fall.

In Virginia

Private Milton DeBorba, son of Dr. and Mrs. F. J. DeBorba of Centerville, is now stationed at Fort Belvoir, Virginia. Aside from the weather, which has been on the rainy side, he has no complaints to make.

In Boise

Mr. and Mrs. August Duarte and son, Jimmy, of Centerville, returned home last week after two weeks spent in Boise, Idaho, visiting relatives and friends.

Machado-Dennis Rites in Reno

The senior ball at Washington High served as the pre-nuptial celebration for Donna Machado and Clifford Dennis, who were married the following day in Reno.

Donna, a member of the senior graduating class, is the daughter of Mr. and Mrs. Antone Machado of Centerville.

Clifford is the son of Mr. and Mrs. C. K. Dennis of Niles, and is employed at the Oakland Airport. He was a member of last year's graduating class at Washington High.

The pair exchanged wedding vows at the Unity Chapel in Reno. Standing up with them were the bride's cousins, Dolores and Bill Mendes of Hayward. Also present were the bride's parents.

The couple spent a few days honeymooning at Lake Tahoe and have returned to live in an apartment in Alameda.

Panama Girl Betrothed To George Harter

Chief Warrant Officer Paul Harter and Mrs. Harter of Canyon Heights received a letter from Panama this week, from their son, George, with an inclosure of a picture of a very lovely girl.

They were happy to learn that the girl will some day be their daughter-in-law. She is Miss Fulvia Selles of Panama, secretary to the postmaster at Ancon. She and MM3 George Harter will be married at the naval base chapel in Panama where he is stationed. He has been there for a year.

To Yosemite

Mr. and Mrs. Lee Facey and family of Centerville are leaving today for a week-end in Yosemite. Going with them is Maureen Burford and "Chuck" Smith.

From Portland

Mr. and Mrs. Robert Kibby and family arrived Saturday from Portland, Oregon, for a two weeks visit with his parents, Mr. and Mrs. Hugh Kibby of Niles.

Juhls Return from Extensive Tour

Mr. and Mrs. Peter Juhl of Niles returned last week from a two and a half weeks' trip to the south and middle west. They went to Carlsbad Caverns, down to Juarez, Mexico, to Texas, Oklahoma, and up to Iowa where they stayed with relatives; then saw the presidents' faces at Mount Rushmore ("which are more impressive than any picture could show", said Mr. Juhl), to Salt Lake where they saw the Tabernacle, thence to Reno, and on home.

"We saw everything there was to see," said Mr. Juhl, "and had perfect weather all the way."

Graduation Party

Over a hundred guests gathered at the Angelo Ferraris house in Centerville during the night of high school graduation at an "open house," where Jack Ferraris, a graduate, received the congratulations of friends and relatives.

Jack is working at Joe Adams in Centerville, until Uncle Sam calls him into the service.

Wedding in L. A.

Mrs. Stuart Kiernan, Niles, was in Los Angeles last week to attend the wedding of her nephew, Ensign Robert White, and Miss Alice Beisert. The wedding ceremony, performed in Shatto Chapel at the Congregational Church in Los Angeles, was followed by a reception in the Garden Room of the Town House.

Wedding Date

Mr. Tom Boyd of Niles and Pearl Ford of Hayward will leave on a trip to San Diego after their marriage at the Methodist Church in Hayward next Monday evening.

Mr. Boyd is employed at Pacific States Steel. The couple will live in Hayward.

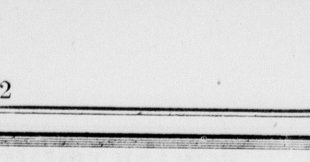
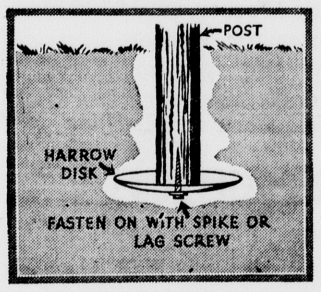
The EASY-DOES-IT CORNER

By Joe Rose

Corner-Post Anchor Made From Old Harrow Disk

We heard about this clever corner-post anchor (below) that will stand a lot of fence pull—prevent sagging. Thought it might interest you.





Incidentally, you can add years to the life of any fence post by dipping it in Standard Wood Preservative. It seals the pores in all types of wood touching ground—fights the causes of wood decay.

Apply it the same as ordinary creosote to grapestakes, fenceposts, mud sills, underpinning, hop poles, etc. You'll find it pays to apply Standard Wood Preservative a foot above the ground to retard fungus and rot. Call us about it. Serving your needs promptly is our aim as local businessmen.

Would you call this the world's greatest invention ?

Perhaps not. For you recognize it instantly as the familiar container known as the tin can.

But . . . think for a moment of what it has accomplished.

It has changed the eating habits of America . . . helped raise the national health level. It has fed our armed forces all over the globe and provided them with a nutritious and a balanced diet.

It has permitted an interchange of products and a sharing of their benefits *everywhere.*

For example, Maine farmers can eat California fruits and Californians can enjoy New England baked beans. You'll find Hawaiian pineapple in Canada, peaches in Alaska, American meats in Norway, and an outstanding variety of canned foods in far-distant, little-known lands.

Through the years American Can Company, working with an alert, progressive canning industry, has pioneered hundreds of uses for this famous container—not only for food, but for such diversified products as motor oil, beer, paint, coffee and ball bearings.

The miracle of the tin can could only have happened in America . . . where a free economy offers such unlimited opportunity for a progressive, forward-looking industry to create jobs and make better products available to everyone at lower cost.

FAMILY FARM IS FAIR FEATURE

The "one-family farm" exhibit is a new feature of the 1952 Alameda County Fair, set for June 20 through July 5 at the county fairgrounds near Pleasanton, according to today's announcement from Dr. Paul E. Dolan, president of the fair board.

Exhibits in this category are limited to Alameda County families only. They must include only products grown within the last year by the exhibitor or members of his family on land farmed by the exhibitor. They will be judged on the basis of quality, variety and arrangement.

Premiums totaling $150 are offered in this classification.

In addition to the "one-family farm" exhibit, other features of the historic exposition will include agriculture, livestock, floriculture, poultry, horticulture, home economics, a horse show on June 22, 14 days of horse racing, Hollywood entertainment, and a Centennial Parade on June 29.

FAIR MANAGEMENT EXPECTS 300,000 VISITORS TO PLEASANTON FIESTA

Gates open today for the historic Alameda County Fair that is expected to attract 300,000 visitors to Pleasanton during a 16-day run.

More than $55,000 in premium money will be presented to exhibitors from throughout the state, who have entered "California's First Major County Fair."

Livestock valued at more than $1,000,000 will go on a blue ribbon parade. Prize products from homes, gardens, fields, farms and orchards will be displayed by proud owners.

Features of the traditional Exposition will include horse racing daily, except Sundays, flower shows, free entertainment each afternoon and evening, agricultural and horticultural exhibits, outstanding Future Farmer and 4-H presentations, the west's largest pigeon, poultry and rabbit show, boasting more than 2200 entries; homemaking, art and photography displays and a carnival and midway.

Flag raising ceremonies this morning signalized the Oakland Centennial observance, saluting the county capitol and the third-ranking city on the Pacific Coast.

A national horse show featuring the nation's richest one-day purse and top show horses of the Pacific Coast is billed Sunday, June 22, at 1 p.m. The following Sunday, June 29, California's top marching units, drill teams, band and floats will vie for more than $2000 in cash and trophy awards.

A special program featuring talent from nearby Parks Air Force Base, plus fireworks at the Fairgrounds, will spark the July 4 celebration.

Other Alameda County cities and organizations will be honored throughout the 16-day run as follows: June 21, 4-H Club; June 22, Berkeley; June 23, Recreation Day; June 24, Castro Valley; June 25, Pleasanton; June 26, Livermore; June 27, Ford Day; June 28, Farm Bureau Day; June 29, Washington Township; July 1, San Leandro; July 2, Alameda; July 3, Hayward; July 4, Eden Chambers; and July 5, Shrine Day.

HERE'S WEEK-END FAIR SCHEDULE:

FRIDAY, JUNE 20
OAKLAND CENTENNIAL DAY
10:00 a.m.—Judging begins. Agriculture, horticulture, art, photography, Veterans Rehabilitation, poultry, 4-H Club booths, floriculture.
12:30 p.m.—Flag raising ceremonies. Postime for races.

8:00 p.m.—"Cavalcade of Stars" in Court of Four Seasons.

SATURDAY, JUNE 21—4-H DAY
10:30 a.m.—Judging begins. 4-H clothing, food preparation, photography, Future Farmer farm mechanics, dairy cattle, 9:00.
12:30 p.m.—Postime for races
2:30 p.m.—"Cavalcade of Stars," in Court of Four Seasons.
8:00 p.m.—"Cavalcade of Stars" in Court of Four Seasons.

SUNDAY, JUNE 22
BERKELEY DAY
10:00 a.m.—Gates open.
8:30 a.m.—Judging begins. Future Farmers booths, wool, sheep breeds, dairy cattle, extended and FFA classes.
1:00 p.m.—Horse Show at track.
8:00 p.m.—"Cavalcade of Stars" in Court of Four Seasons.

Answer to this week's "Guess Who": J. A. McDonald, Niles.

GERMAN MEASLES

A single case of German measles marred Washington Township's otherwise-perfect contagious disease record last week, a report from County Health Officer James Malcolm showed today.

TOWER TO BRING TV TO CANYON

Homeowners in the lower reaches of Niles Canyon, long plagued with poor television reception or none at all because of the steep hills nearby, took hope this week.

A Niles television store owner, Alfred C. Hagerty, on Tuesday obtained permission from the County Board of Supervisors to erect a 40-foot master-antenna tower at the south end of the county bridge. He said he plans to pipe reception into more than a score of homes from the tower.

First enterprise of its kind in the area, the project is being underwritten by 28 homeowners who have organized for the purpose. Additional "subscribers" may apply to Judge E. A. Quaresma, escrow holder for the project, if they want to tie into the tower.

CAFE OWNERS TO MEET ON STRIKE

Faced with the threat of a work-stoppage from AFL culinary workers, local members of the East Bay Restaurant and Tavern Owners' Association will meet to discuss union demands tonight in the International Kitchen.

The meeting is called by W. J. Dykehouse, association secretary, who promised a report on current employer-union negotiations.

The Restaurant and Tavern Owners' contract with the union expires July 6. The union is seeking a 20 per cent wage raise, eight paid holidays, other "fringe" benefits, plus $7.50 per week in employer contributions to a welfare fund.

Tonight's session starts at 7:30 o'clock.

NEWARK FIREMEN, CHIEF PRAISED

The Newark Fire Department and its chief, Joseph E. Pashote, received high commendation this week for the 1951 fire-prevention drive.

The Fire Prevention Committee of the International Association of Fire Chiefs delivered the commendation in a letter signed by Jay W. Stevens of San Francisco.

Chief Pashote and the Newark Department performed "outstanding" work through inspections of schools, industrial plants and public buildings, the citation sets forth.

Pashote's inspections were performed on his days off.

A plate on the 15th step leading to the capitol at Denver, is exactly one mile above sea level.

FLOOD REPORT DUE FOR IRVINGTON

At a night session next Tuesday, the Irvington Chamber of Commerce will hear a report on progress of flood control measures.

The report is due from Jack Prouty, chairman of a committee named to study flood problems after last January's deluge.

Vice-President Wallace Pond this week announced no night meetings will be held during July and August.

MARRIAGE IS SERMON SUBJECT AT CENTERVILLE

"Christian Marriage — What makes it best? How can we have it?" will be the subject of the Sunday morning 11 o'clock sermon to be delivered by the Rev. Howard Steward at the Centerville Presbyterian Church.

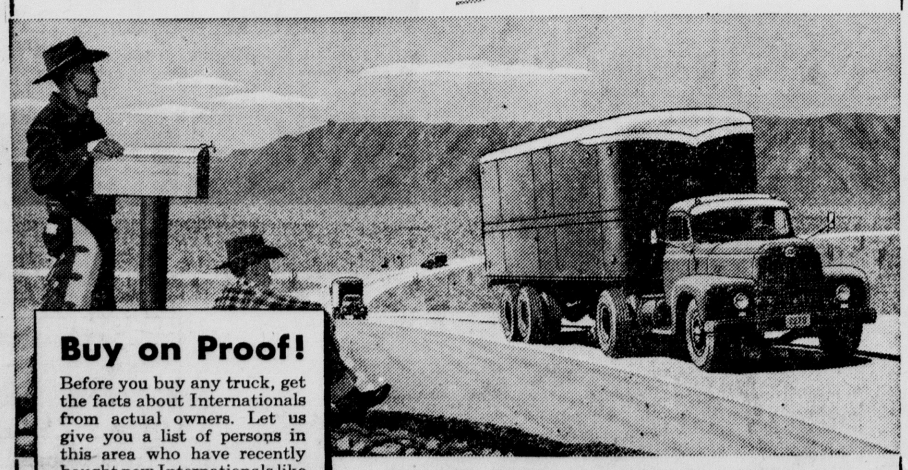
Just count 'em!
Count the number of Internationals you see next time you're on the highway.
Why? Because you'll learn this very simple truth: professionals in the hauling business use more heavy-duty Internationals than any other make truck.
The reason they do is that Internationals give them lower operating and maintenance costs, longer truck life. Why not come in and let us show you how we can give you these truck values on your job?
Only Internationals give you—
• All-truck engines—built in the world's largest truck engine plant.
• The "roomiest, most comfortable cab on the road"—the Comfo-Vision Cab.
• Super-steering system—more positive control, easier handling and 37° turning angle.
• The same traditional truck toughness that has kept International first in heavy-duty truck sales for 20 straight years.
• The truck engineered for your job . . . 115 basic models, from ½-ton to 90,000 lbs. GVW ratings.
• Largest exclusive truck service organization.


Buy on Proof!
Before you buy any truck, get the facts about Internationals from actual owners. Let us give you a list of persons in this area who have recently bought new Internationals like the one you are considering. Check with any or all of them. Find out how Internationals cut hauling costs on jobs like yours.
Model L-195 Roadliner, 157-in. wheelbase, 48,000 lbs. GCW, gasoline, diesel or propane power plants.

Thinking Things Over . : :

By VIVIAN BATMAN

MOST INTERESTING PEOPLE

If you want to meet interesting people on your vacation, you don't have to go to the Islands, or take an excursion trip, or a trip to Europe.

I've decided that the most interesting people in the world gravitate to a used-car lot. So that is where I'm going on my vacation. To a used-car lot.

This may sound a bit balmy. However, if you like very unusual people — and I do — you will certainly find them at a used-car lot. I have not seen any of them yet... But various salesmen who work at these lots have told me about them. If I hang around long enough, I'm sure I'll meet them.

Let us pretend that we are now at a used-car lot, so you can get into the spirit of the thing. See that green sedan over there, that 1939 model? You wouldn't believe it, but that car is in perfect shape because the woman who owned it bought it shortly before her husband died, and she could never bring herself to use it after his death. The memories involved in the good times they were going to have taking trips together were too much for her. However, she couldn't bear to part with it until now. It has everything original, including the owner.

Now wouldn't you like to meet a woman like that? What sentiment she has! What tenderness! What loyalty! How often would you meet a woman so noble?

Not often. Besides that, she has a truly generous nature, for that car is being sold for a song.

See that '46 sedan, that light grey one? A little old lady had it. She never went over 25 miles an hour. She apparently drove without using the engine, because it's the same as new—the salesman said.

She also must have taken the tires off before she took the car out, because they, too, are the same as new—the salesman said. The car has 47,900 miles on it, yet with this woman's amazing driving ability, the car could easily have just come out of the factory at Detroit, for all the wear and tear there's been on it.

How wonderful to meet this little old lady! Actually, she's a mechanical genius. Wouldn't you feel stimulated in the company of an old lady of such calibre?

Another interesting person I hope to meet is the man who owned that sporty green convertible. Right after he bought it, his wife came down with tuberculosis. Naturally, she couldn't go out riding in it. Besides that, the doctor bills kept piling up. He had four little children to feed. He couldn't sleep nights, worrying about the doctor bills and the starving children. He was willing to take anything on the car. So now it's in a used-car lot, at a most amazing price.

How many men are that conscientious about doctor bills, and starving children? He's one man in a million. I would like to meet him, and tell him so.

See that black coupe over there? That was bought by a woman who couldn't drive, but thought she could learn. She couldn't. Every time she got on the highway she found herself playing that childish game—"can't step on a crack in the sidewalk." Only this was "can't touch that white line." It got so that she was predicting the most depressing future for herself—"can't touch the white line or I won't get that pay raise," or "can't touch the white line or I won't get invited to Mrs. Blotch's party." Once she found herself saying, "can't touch the white line or some terrible catastrophe will happen to me."

It did. She touched the white line. As a matter of fact, she veered completely over it, and ran head-on into another car. Naturally, she decided she never wanted to drive again. So her car is a real bargain. Just because it has a few dents, it's being sold way below its true value, even though the engine wasn't hurt a bit. Not a bit—the salesman said.

What a challenge to one's analytical ability, meeting a woman like that. You could psychoanalyze her. You could draw her out and find out why she has this white-line phobia.

Now perhaps you can see why I'm taking the all-expense tour to the nearest used-car lot. Take your Hawaii, your trip to Europe, your boat excursion.

Nobody you'll meet will be as fascinating as the people I'll meet at a used-car lot.

During coal mining operations in Alameda County many years ago, ancient plant fossils were found.

TV NEWS

By LEO BOHANNON

One of television's arguments for filmed programs versus "live" shows is the "flub" or mistake which cannot be rectified on a live show but which can be eliminated later from a filmed version of a program. One famous flub which has occurred more than once is the accidental showing of an announcer, after praising a certain brand of beverage and thinking he was "off camera," carelessly pouring the beverage into a waste basket instead of drinking it as he should have done. Then there's the case of a dramatic moment of a mystery thriller when the heroine tiptoed up to a door behind which the villian might be waiting . . . only to reveal, when the door opened slowly, a cameraman.

But the one we like is the story of the corpse in the bathtub on another thriller who raised his head above the bathtub's edge to see if he was still "on camera." He was!

Then there's the chap we know who couldn't afford a television set but keeps a phony aerial atop his house to fool the neighbors.

It pays to buy from a dealer who knows television . . . and upon whose judgment you can rely. We have the finest in sets . . . and top service for your installation and repairs. We're always proud to serve you at

NOTICE OF INTENTION TO ENGAGE IN THE SALE OF ALCOHOLIC BEVERAGES

June 19, 1952

To Whom It May Concern:

Subject to issuance of the license applied for, and commencing not less than 15 days after the date posted, notice is hereby given that the undersigned proposes to sell alcoholic beverages at these premises, described as follows:

E Street, next to Decoto Theatre, Decoto.

Pursuant to such intention, the undersigned is applying to the State Board of Equalization for issuance on original application of an alcoholic beverage license (or licenses) for these premises as follows:

On-Sale Beer.

Anyone desiring to protest the issuance of such license(s) may file a verified protest with the State Board of Equalization at Sacramento, California, stating grounds for denial as provided by law. The premises are not now licensed for the sale of alcoholic beverages.

...ner told both audiences much of the trouble arises because voters neglect to put their street locations on their registration cards. They use post-office box numbers for addresses, he said.

This raised the thorny topic of street names and numbers, one which several civic groups have attacked recently. Eugene Manning of Centerville suggested again a Township-wide system of house numbers would help.

"They're numbered now by the different fire departments and the PG&E," Manning complained.

Stanley replied this is a job for the Planning Commission — one however that was undertaken six months ago in Livermore. The supervisor suggested the local body take the issue up with the Township Chamber of Commerce to request the re-naming and re-numbering on an area basis.

Both Centerville and Irving... to agreed to do so.

Koerner said the trouble stems back to 1924, when the county accepted streets and roads with whatever names and numbers they had at the time.

PLANNERS HEED WOMEN'S PROTEST

The controversial request to locate a $50,000 trailer court at the mouth of Niles Canyon was rejected Wednesday by the County Planning Commission.

The turndown climaxed weeks of seesawing, with the Niles Women's Club opposing the project, and the Niles Merchants Association and Chamber of Commerce favoring it. The women for five years have campaigned for a public park on the site.

At Wednesday's session in Oakland, the commissioners unanimously denied the petition to establish the court, which was presented by E. C. Thomas, steel mill executive. County laws now require commission approval for trailer courts.

Commissioner Harry Melvin commented that a petition against the court, presented by Mrs. Edna Overacker, contained 76 names. Said Melvin:

"There is ample indication that many local people do not think a trailer court is desirable for the community, and I am inclined to agree.

"It is important that the entrance to the Canyon be developed for recreation." Then Melvin moved to deny Thomas' application and a swift 5-0 vote spelled an end to the court.

Thomas said he will abandon the sheme. He had leased 7.9 acres behind the old Vallejo Flour Mill for the enterprise. The land is owned by the City of San Francisco.

However, Mrs. Overacker told the commission the women's club wants not only the mill as a historic monument, but also wants the 7.9 acres for recreation "for boy and girl scouts." She hinted San Francisco will permit the use of the site for a park. Thomas said in his dealings with S. F. officials they have signified they will not.

W. D. Patterson, president of the Alameda County Water District, appeared to offer the district's services as an intermediary "until some local agency" (unnamed) makes a park out of the site.

Patterson said he thought the district could "advance the necessary funds." But Deputy District Attorney Richard Moore countered he does not believe so, since the district can acquire land only for primary purposes of flood control.

Mrs. Laura Whipple also warned a trailer court near the Niles Canyon Road intersection would present a safety hazard. But Thomas retorted:

"Absurd . . . if it's dangerour for a trailer court, then why not more so for a park where children would have to cross the highway?"

Last week the Niles Merchants voted 47-2 to back the court, saying it would provide needed housing and bring more business to Niles. Also backing the project on Tuesday was the Niles Cham-

mum local effort to get adequate schools."

MOUGHON FACING 4 MANSLAUGHTERS

Ray L. Moughon, 45, of Niles, driver of the car which killed four San Jose motorists on the highway at Niles June 15, this week was charged with four counts of felony manslaughter.

Moughon is free on $200 bail and will appear Tuesday for arraignment before Judge Manley Clark in Centerville.

If convicted, Moughon faces a possible 40-year prison term.

WOMEN ORGANIZE

"Women for Better Government" is the name adopted for a group of non-partisan township women.

The women, representing Livermore, Pleasanton, and Washington Township, elected Mrs. Harold Korell, Niles, temporary chairman.

Next meeting will be July 16.

FAIR ENTHUSIAST . . . Bill Tyson, 10, Niles 4-H Clubber, shows his organization's Alameda County Fair exhibit to Cathy Bradley, 20, 280 H Street, Niles. The Niles 4-H entry took runner-up honors. It represents (left) a modern, well-kept farm and (right) a run-down farm.

TV NEWS

By LEO BOHANNON

One of television's arguments filmed programs versus "l shows is the "flub" or mist which cannot be rectified o live show but which can be e inated later from a filmed ver

of a progr One famous which has oc red more once is the acci dental showing of an announcer, after praising a certain brand of beverage and thinking he was "off camera," carelessly pouring the beverage into a waste basket instead of drinking it as he should have done. Then there's the case of a dramatic moment of a mystery thriller when the heroine tiptoed up to a door behind which the villian might be waiting . . . only to reveal, when the door opened slowly, a cameraman.

But the one we like is the story of the corpse in the bathtub on another thriller who raised his head above the bathtub's edge to see if he was still "on camera." He was!

Then there's the chap we know who couldn't afford a television set but keeps a phony aerial atop his house to fool the neighbors.

It pays to buy from a dealer who knows television . . . and upon whose judgment you can rely. We have the finest in sets . . . and top service for your installation and repairs. We're always proud to serve you at

OLD FOLKS

Is Cal overloaded with old folks? Nope. Popular notion that we have abnormally high percentage of old-times is false. Only 8.2 per cent of Cal pop. is over 65. That's same as national average. The belief that Cal is special magnet for old-timers from other states is also false. Everybody wants to come here and some just happen to be old. Of the 273,000 drawing old-age pension, half have been here more than 36 years. Cal has plenty of happy oldsters, though. Still spry at 90, Chris Beckley, **Ukiah,** works out with cross-cut saw, sees fine without glasses. Mrs. Caroline Waterman, **Agua Caliente,** is one year past the century mark. Her hobby: TV wrestling shows. In **LA,** Emil Arky, 81, was feted by hotel after spending 44 years in same suite. Mr. and Mrs. Robert Berg, **Sonora,** are typical of the many couples who have celebrated Golden Wedding Anniversary. In **Niles,** the Guthrie sisters, 85, 84 and 83, often get together to talk over future plans. Carl Haderman, **Sonora** Odd Fellow, was given jeweled emblem for 50 years membership. Ten others here wear same insignia. What keep's Cal's oldsters so chipper? Ninety-four-year-old W. S. Moore, **Hollister,** has this to say: "I never took a drink of whiskey or a chew of tobacco until I was 11 years old."

DATELINES

Mill Valley. Is M.V. the only Cal community to have a woman mayor? She's Mrs. Miriam Cummings. After some discussion, council members decided that Mrs. Cummings was to be addressed as Madame Mayor. **Suisun** City Council has feminine member, Mrs. Clare McFall. Don't know what you call lady-councilman. Toots ar Babe is probably okay if you are close friend. . . . **BLYTHE.** On hottest day of the year, **Blythe** busted its record for drunks. Seventeen appeared before Judge Cusick to hear same interesting words: "Twenty-five dollars fine or twelve and a half days in jail." It costs **Blythe** $565.47 to feed prisoners for a month. Court receipts in same period total $2018. Forty-eight per cent of arrestees are drunks. . . . **WILLITS.** Big prize will be given here July 3 for best set of whiskers. All part of Frontier Days celebration. You can't tell how tough man is by his whiskers. Man is real man when wife suggests movies and man says, "Not tonight. I'm bowling with the gang."

THEY SAY

"Only California farmers raise the fruit, but nobody wants to buy it," says William Noble about the date. "Date growers have a monopoly, but that's all. Dates don't sell themselves." When was last time you bought some dates? They're better than candy.

MERITORIOUS AWARD

To James Lawson, **Ukiah.** Noticing that car ahead was out of control, Lawson sped in front of it any maneuvered car to halt. Investigation showed that hydraulic brakes had given out. Lawson's daring and skillful driving saved lives of three occupants.

CALIFORNIANS

Jim Baker, **Sonoma.** Jim is Cal's youngest Chief of Police. Twenty-seven. A fellow that age still ought to be getting into trouble himself. **South Pasadena's** Chief, Robert Blakely, has interesting time. Lassoed a runaway horse, then sent his men out to investigate a Lady Godiva who was motorcycling while wearing only poodle-cut. Cops caught a full dressed man on scooter. This is not the same thing. . . . Linda Moncrief, **Parlier.** This 10-year-old miss has tamed two birds but can't explain how she does it. Birds are purple finches, George and Hot Rod. Birds bathe in water-glasses on table, perch on shoulders, like to peck at earrings. Linda is thinking up new name for George since George laid egg. . . . Mrs. Thomas Wedge, **Shafter.** Librarian Wedge got an apologetic letter from Kansas with two 3c stamps enclosed. Reader had owed library 3c over-due fine since 1936. **Shafter** library now has 3c too much. Any suggestions? People in **Kern County** are reading more than last year, but Shafterbergers ain't. They slipped to seventh place, one behind **Wasco,** in total volumes taken from library. Big mystery at **Concord** library. Five hundred persons applied for new cards but never picked them up. Why? Maybe **Shafter** library will donate its extra 3c stamp to sleuth who solves this. **Hemet** kids collected 7747 books for servicemen in Korea. Class that collected most got prize: Five-lb. box of chocolates. Beats reading. In **Ukiah,** Librarian Marion Marvin teaches story telling. Will Miss Marvin please tell us why small fry always want story told exactly same way?

MAN'S BEST FRIEND

California's canines are becoming sissies. Rabbits are now the tough-guys. This trend has been noted in **Monterey Park** where one rabbit has put the squelch on two dogs. Hardboiled rabbit munches contentedly while fenced-in dogs, Blackie and Chrissy, are rapidly going crazy. Rabbit has learned what time dogs are let out and rabbit nonchalantly strolls off just before then. Rabbit calmly eyes frustrated dogs. Rabbit getting stronger every day while dogs getting weaker. Within two or three weeks it is expected that rabbit will jump fence and kick stuffings out of the dogs. Man's best friend is now the goose. Herman Willis of **Dos Palos** has discovered that the goose is the best weed-killer on the market. Willis says the goose is the answer to the cotton growers' weed problem. Using five geese to the acre, Willis beat the bermuda grass problem and upped his cotton take two bales to the acre. Geese were used in the South since early times, but Willis seems to be first Californian to put them to work. In **Arcata,** they are proud of shepherd dog that goes to school every day. Fourth Grade. Dog sits in class and when bell rings goes outside for recess. If this dog doesn't get back to his business, next thing you know geese will be helping sheepherders.

CAL QUIZ ?

What Do You Know . . . About

California Champs

1. One of these Californians has not been Tennis Champion of the U.S.A.: Donald Budge. Ted Schroeder. Mel Patton. Elsworth Vines. Jack Kramer.
2. Lefty O'Doul, now manager of the San Diego Padres, was once: Best pitcher in the American League. Leading batter in National League. Best catcher in the Coast League.
3. Max Baer, Livermore, won the World's Heavyweight Boxing title from: Jack Sharkey. Primo Carnera. Jim Braddock.
4. First California Team to win the World's Amateur Softball Championship was: Zazzy-Zippers, Arcata. Crenshaw Motors, Bakersfield. Hammer Field, Fresno.
5. In his field, David G. Freeman of Pasadena has won more championships than any other American. Dave's a whizz at: Steeplechase riding. Low hurdles. Badminton.
6. Now that Joe DiMaggio has retired, Californians can be proud of this hard hitting big leaguer who lives in Alhambra: Ralph Kiner. Leo Durocher. Stan Musial.

Answers:

1. Mel Patton
2. Leading batter in National League
3. Primo Carnera
4. Hammer Field, Fresno
5. Badminton
6. Ralph Kiner

Lemonade Still Tops

For a truly cooling, refreshing beverage for the whole family, there's nothing better than wonderful homemade lemonade. And you can have this delicious, wholesome drink in a few seconds, without any muss or fuss, without having to squeeze a single lemon, simply by using convenient, vitamin - rich canned lemon juice made from select California lemons. It's the biggest beverage bargain in the world, for a small can makes at least two quarts of lemonade for only a few cents.

This is not only a big savings compared with the cost of other popular soft drinks, but you have no bottles to carry and no bottles to return and deposits to collect. Furthermore, this homemade lemonade is so much better for everyone, children especially. There are a lot more uses, too, for this pure, natural canned lemon juice, for it may be used in dozens of ways, so much more conveniently, as you would home squeezed lemon juice—pies, cakes, salad dressing, on fish, in hot or iced tea, for instance.

Don't forget, too, that a great many jam and jelly recipes call for lemon juice, and what more convenient to have ready-to-use lemon juice always at hand for this and every other use than by keeping several cans on your kitchen shelves the year 'round.

The Portuguese explorer, Juan Rodrigues Cabrillo, discovered the Faralon Islands on Nov. 16, 1542.

Some Lessons The

CALIFORNIA WIND

Teaches Us

By ALBERT WILSON
Lecturer, Author of "How Does Your Garden Grow?"

Some days the wind keeps up with long spouting and wailing, rushing and penetrating with sharp thrusts into the very centers of our precious little plantations. Today, as Marcus Aurelius would have said, "we have no warrant for being surprised at this for it is part of nature." We live close to the sea and the West winds that have come swiftly across the waters with nothing to stop them whack with full gale force against our beaches, our bluffs, our dramatic cliffs, draw through the forests like long locks and rough a comb, spin around our skyscrapers and at last tone down to half a gale, spurt along our streets, and our parks and into our gardens.

GARDENERS AND WIND

Now we gardeners are not interested in wind, merely so we can talk about it over the fence as an item of the weather and then, as Mark Twain said, not do a thing about is. We are interested in wind practically for we indeed have to do something about it.

Every time a big wind like this comes up, and it's seldom enough to be called an emergency, there are all kinds of unexpected changes that take place. We suddenly learn that we made some very poor dispositions when we planted our gardens, that our design has some whopping faults. We now realize that we set out plants with big leaves that take the wind like a kite right where that wind has full sweep. Our cherished banana tree for example: it still stands but where are its leaves? There they are, shredded into fringes that from now on will be of no use at all.

OTHER DISASTERS

There stands your cherished magnolia. You've admired so much its great, shiny, green leaves and delicate fragrant white saucers of blooms. Its leaves have plucked themselves away—gone with the wind and their saucers with them.

Then there are other disasters less conspicuous but even more heart-rending. The tender new spring growth here, there and everywhere . . . much of it is snapped off. You found little apples, plums, apricots, pears, and even walnuts piled on the ground—thrown there by that awful wind.

There are various trees and tall-growing shrubs that are especially brittle. As I was walking along a street at noon under the Chinese elms I heard a succession of cracks as though someone were slapping his hands together. Pieces twenty feet long were tumbling down into the street. Those trees hadn't been topped and the long spires that went up for sunshine found that day they had gone too high.

STEALS MOISTURE

Down on the ground the wind has been playing havoc as well. You gave your lawn a good watering yesterday and also your rhododendrons with their mulch of peat but the moving air has been busily and even fiercely pouring through every little opening and stealing that moisture away.

I wish we might trace the travel of a drop of water by some device like the Geiger counter which they use to trace radio-active material. We'd follow it into the ground, and then when the wind came up and out again and aloft on the wings of the gale and over a mountain top and down in a rain, and then in a river, and then—to tell the truth—I don't know where all. But anyway we know our drop of water is gone out of the lawn and out of the rhododendron mulch and what's left to the depth of a couple of inches is mere drought.

PUT HOSE BACK

But where are you going with that hose, sire or madam, while the wind is still going great guns? Put it back. Leave your whole garden alone despite all the melancholy accidents about. Go back into the house. Seat yourself in comfort and read Marcus Aurelius or some lesser author such as Albert Wilson. Reflect that now the messy oak that you never could get at has been got at for you—and for free. Nine hundred and seventy-three dead twigs and branches, 4300 dead leaves and 960,000 dead catkins have been pulled off and rained down to the ground all ready for you to rake up. Your redwood which has been swaying and jumping up and down like a dervish in fury has got rid of three bushels of cones and old, brown needles and already looks as fresh and shiny as though it had a turkish bath.

LET'S CHEER UP

A few of your gladiolus, delphinium, phlox and hollyhocks may have snapped but your petunias, lobelia, and dwarf marigold are having a lovely time, as though they were out for a swim, rolling and streaking and weaving back and forth but not suffering in the slightest and only seeming to smile and enjoy the storm.

As for damage in the rest of the garden, let us all cheer up. It's by no means as bad as it sounds or looks. Almost by the time you get over your first shock you'll find that the plants, in a most businesslike way, will have started quite energetically to repair themselves.

BIG WATERING

Of course, before that time, you will have gone to work with the hose and with other garden implements to perform your own very important part. Give all your plants a terrific watering after wind storms. Don't overlook roses injured by the winds. Prune back to good secure wood and re-tie the climbers.

Spray for Lice Early in Day

Spraying to kill plant lice is best done early in the day. The reason is that the solution will become stronger with the evaporation of its water while applied in the evening the same solution may become diluted with dew. Too, the morning application dries up and sticks to the leaves whereas the evening application tends to dissolve with the dew and become dilute and drop off. In spraying for aphis be sure to get the under side of the leaves.

Protect Catnip

Catnip for the cats pleasure should be protected during the first year by a cover of chicken wire, otherwise the cats will in their ecstacy ruin the plants before they can become established. Nepeta is a popular catnip. It is easy to grow. Old plants should be cut back once a year.

White Wash Your Trees to Protect From Sun

Agricultural authorities in every county of this state recognize the wisdom in applying a coat of whitewash on deciduous fruit trees as a simple protection against months of the fierce long day sun. A coat of whitewash is beneficial not alone for new planted trees which as yet have not outstretched branches to protect their slender trunks, but also for old trees which have been top worked, and for old orchard trees which have been pruned heavily to rejuvenate scaffold and canopy growth. Gardeners often apply a coat of whitewash to the trunks of newly planted street trees, and other ornamentals such as hawthorne, catalpa, and flowering magnolia.

PREVENT SUNBURN

Whitewash protects a tree from sunburn. Sunburning itself may not always be of severe importance, as the area of bark affected may be limited. But the serious result comes in the attack by borers of several kinds which make a specialty of going after tree trunks and branches injured by sunburn.

The time to apply a coat of whitewash is right now before real hot weather comes. And the idea is not to be stingy with it. If need be repeat, put on two and three coats. Whitewash tends to keep down the temperature, and also lessens drying out, and this goes for scions which have been grafted onto a walnut or apricot, for example.

PREPARED WHITEWASH

Dealers handle prepared whitewash, and all one has to do is follow instructions. However, there are many favorite formulae of whitewashes. The Agricultural Department of the University of California offer two simple whitewash mixtures. The less expensive is made up of the following ingredients: Processed lime 10 pounds, table salt one pound, dusting sulphur one-half pound. Processed lime is finely ground "quick lime" which is also called "hot lime."

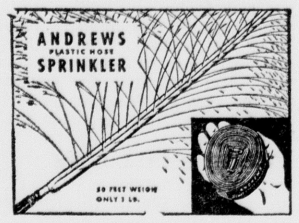
DIRECTIONS FOR MIXING

Start water slaking the hot lime. When enough water has been added to wet the whole mass and it is bubbling, add sulphur and stir well. Temperatures are high enough to dissolve the sulphur and cause it to react with lime. When bubbling has stopped but the mass is still very hot, add additional water and then the salt. The hot water will dissolve the salt readily. The whitewash is now made and can be diluted to the desired consistency, thinner if to be applied by spray and somewhat thicker if to be applied by brush. The "whitewash" is not white but has a yellow color like mayonnaise. Upon application it will bleach to a true white. The above amount will make five to six gallons of wash. Some gardeners like first to wet the tree trunk and branches before painting on the whitewash.

SECOND FORMULA

The second choice that could be made for a whitewash would be a little more expensive but it will stick better than the lime whitewash. It can be made up

(Continued on Page 7)



50 Ft. Sprinkler Weighs 1 Pound

Here's a double, lightweight, plastic tube, which looks like a soaker, but can sprinkle an area 12 feet wide at average pressure. Light to handle (50 feet, 1 pound), the Andrews Plastic Hose Sprinkler will not rot or mildew, even if stored wet! The spray is so fine it's gentle on flowers. Complete with brass connector: 20-foot length, $2.50; 50-foot, $4.75 prepaid. Write A. M. Andrews Co., Dept. 44, 4410 N. E. Glisan St. Portland 13, Oregon. Dealer inquiries invited.

PLANNERS HEED WOMEN'S PROTEST

The controversial request to locate a $50,000 trailer court at the mouth of Niles Canyon was rejected Wednesday by the County Planning Commission.

The turndown climaxed weeks of seesawing, with the Niles Women's Club opposing the project, and the Niles Merchants Association and Chamber of Commerce favoring it. The women for five years have campaigned for a public park on the site.

At Wednesday's session in Oakland, the commissioners unanimously denied the petition to establish the court, which was presented by E. C. Thomas, steel mill executive. County laws now require commission approval for trailer courts.

Commissioner Harry Melvin commented that a petition against the court, presented by Mrs. Edna Overacker, contained 76 names. Said Melvin:

"There is ample indication that many local people do not think a trailer court is desirable for the community, and I am inclined to agree.

"It is important that the entrance to the Canyon be developed for recreation." Then Melvin moved to deny Thomas' application and a swift 5-0 vote spelled an end to the court.

Thomas said he will abandon the sheme. He had leased 7.9 acres behind the old Vallejo Flour Mill for the enterprise. The land is owned by the City of San Francisco.

However, Mrs. Overacker told the commission the women's club wants not only the mill as a historic monument, but also wants the 7.9 acres for recreation "for boy and girl scouts." She hinted San Francisco will permit the use of the site for a park. Thomas said in his dealings with S. F. officials they have signified they will not.

W. D. Patterson, president of the Alameda County Water District, appeared to offer the district's services as an intermediary "until some local agency" (unnamed) makes a park out of the site.

Patterson said he thought the district could "advance the necessary funds." But Deputy District Attorney Richard Moore countered he does not believe so, since the district can acquire land only for primary purposes of flood control.

Mrs. Laura Whipple also warned a trailer court near the Niles Canyon Road intersection would present a safety hazard. But Thomas retorted:

"Absurd . . . if it's dangerour for a trailer court, then why not more so for a park where children would have to cross the highway?"

Last week the Niles Merchants voted 47-2 to back the court, saying it would provide needed housing and bring more business to Niles. Also backing the project on Tuesday was the Niles Cham-

UNSCRAMBLE INCT MESS

s to straighten out the irkownship precinct jumble ing made by County offis week.

m Koerner, in charge of tion for County Clerk J. gston, told the Irvington r of Commerce:

le will place a large prenap in the County Build- Centerville so voters can themselves in precincts e map, then notify his

will hand photostat copies map to all local volunteer rs so they can do the same. ier appeared the day preith Supervisor Chester E. at the Centerville Chamcheon. The visit was in to complaints that some had to travel as much as es to ballot on June 3.

er told both audiences f the trouble arises because voters neglect to put their street locations on their registration cards. They use post-office box numbers for addresses, he said.

This raised the thorny topic of street names and numbers, one which several civic groups have attacked recently. Eugene Manning of Centerville suggested again a Township-wide system of house numbers would help.

"They're numbered now by the different fire departments and the PG&E," Manning complained.

Stanley replied this is a job for the Planning Commission — one however that was undertaken six months ago in Livermore. The supervisor suggested the local body take the issue up with the Township Chamber of Commerce to request the re-naming and re-numbering on an area basis.

Both Centerville and Irvingto agreed to do so.

Koerner said the trouble stems back to 1924, when the county accepted streets and roads with whatever names and numbers they had at the time.

MOUGHON FACING 4 MANSLAUGHTERS

Ray L. Moughon, 45, of Niles, driver of the car which killed four San Jose motorists on the highway at Niles June 15, this week was charged with four counts of felony manslaughter.

Moughon is free on $200 bail and will appear Tuesday for arraignment before Judge Manley Clark in Centerville.

If convicted, Moughon faces a possible 40-year prison term.

WOMEN ORGANIZE

"Women for Better Government" is the name adopted for a group of non-partisan township women.

The women, representing Livermore, Pleasanton, and Washington Township, elected Mrs. Harold Korell, Niles, temporary chairman.

Next meeting will be July 16.

FAIR ENTHUSIAST . . . Bill Tyson, 10, Niles 4-H Clubber, shows his organization's Alameda County Fair exhibit to Cathy Bradley, 20, 280 H Street, Niles. The Niles 4-H entry took runner-up honors. It represents (left) a modern, well-kept farm and (right) a run-down farm. (Register Photo)

TV NEWS

By LEO BOHANNON

One of television's argument filmed programs versus shows is the "flub" or mis which cannot be rectified live show but which can be inated later from a filmed ve of a prog

One famous which has oc red more once is the acci dental showing of an announcer, after praising a certain brand of beverage and thinking he was "off camera," carelessly pouring the beverage into a waste basket instead of drinking it as he should have done. Then there's the case of a dramatic moment of a mystery thriller when the heroine tiptoed up to a door behind which the villian might be waiting . . . only to reveal, when the door opened slowly, a cameraman.

But the one we like is the story of the corpse in the bathtub on another thriller who raised his head above the bathtub's edge to see if he was still "on camera." He was!

Then there's the chap we know who couldn't afford a television set but keeps a phony aerial atop his house to fool the neighbors.

It pays to buy from a dealer who knows television . . . and upon whose judgment you can rely. We have the finest in sets . . . and top service for your installation and repairs. We're always proud to serve you at

Timely Tips on HOME FREEZING

From the P.G. and E. Home Economics Department

CHERRY TIME

This is the season for freezing cherries! Packed at the peak of perfection and stored in your home freezer, they'll be a treat for the family when you serve them out of season.

Select cherries with good color, rich flavor and tender skins. They should be a little riper than for fresh use. Sort them carefully for uniform ripeness and size; any that are bruised or too ripe for freezing may be used immediately or made into preserves.

FREEZE SMALL LOTS

Prepare cherries in small quantities. Wash them thoroughly but quickly, drain, and remove stems. Sweet cherries may be frozen whole or pitted, as desired. The pits give an almond-like flavor. Some cherries should be pitted; this is easy to do with a salad fork after they have been chilled.

Cherries keep their color and flavor longer if they are sweetened. Put whole cherries directly into containers and cover with cold syrup of medium weight. (Make 40% syrup with 3-3¼ cups sugar to 4 cups boiling water.) Allow ½ to ¾ inch headspace for expansion during freezing. With pitted cherries use 1 part dry sugar by weight to 4 parts pitted cherries. (About ¾ cup sugar to 1 quart fruit.)

ASCORBIC ACID

Cherries are usually packed with ascorbic acid (vitamin C) to prevent darkening. For syrup pack, dissolve ascorbic acid in a little water, then add to cold syrup, stirring it in gently. For dry sugar pack, mix ascorbic acid well with sugar and distribute evenly through the fruit. Commercial preparations of ascorbic acid should be used according to directions on the package.

Fruits prepared with syrup should be packed in liquid-tight containers. Glass freezer jars are excellent; rigid cartons or tubs of moisture-vapor-proof material are also convenient. Cellophane lined cartons or pliofilm or polyethylene bags may be used for fruit packed with dry sugar; they should be heat-sealed. Freeze fruit immediately after packing.

WONDERFUL STRAWBERRY JAM IN FIFTEEN MINUTES

This new, easy method and how-to-do photos courtesy of Jean Porter, C and H Homemakers' Bureau

1. Wash 2 pint-baskets of ripe berries. (No, don't hold them under running water from the faucet! That drives the sand right into them. Instead dunk the berries quickly in a bowl of cold water; lift out with fingers; drain in strainer or colander.) Hull berries after washing.

2. Measure 1 quart hulled berries; 1 quart granulated sugar; 2 tablespoons strained lemon juice. Put berries and 2 cups of the sugar into a large, broad kettle or saucepan. (The jam will cook more evenly in a broad pan than in a deep, narrow pan.)

3. Heat berries and sugar to boiling, stirring constantly; boil 2 minutes, stirring. Add remaining 2 cups sugar, again heat and boil, stirring, 3 minutes. Add lemon juice. Pour into shallow bowl and stir occasionally while cooling. Leave overnight. (This plumps berries, keeps them from floating.)

4. Spoon the cold jam into hot, sterilized small jars, and seal at once. Makes 2 pints of rich, bright jam, thick but not too stiff. Label jars and store in a cool, dry, dark place. Make additional batches rather than double the recipe. Pour them into the same bowl to cool, if you wish.

Home Canning = Good Eating

By MARGUERITE FENNER
Director of Home Economics, Pacific Gas & Electric Co.

Any homemaker who has done home canning knows the thrill of satisfaction you get when you see a row of jars with bright colored fruits on the shelf, home-canned fruits that you put up yourself when they were at the height of their season. They mean lots of good eating when the fresh fruits are no longer available or too expensive. The same is true of vegetables, and all the variety of pickles, preserves and jellies that you store away during the summer.

For the benefit of young brides who want to experience that same thrill but have never done any home canning, here are a few general rules that should be followed in order to have good results. Experienced old-timers will find, too, that it pays to keep up-to-date on home canning procedures, because much research has been done which has changed some of the old methods.

SELECT QUALITY

First of all, good canning begins with the selection of quality fruits and vegetables. Fruits for canning should be fully ripe, but firm and without bruises. Vegetables should be garden fresh, canned the very day they are gathered and as soon after gathering as possible.

Both fruits and vegetables should be washed clean, rinsed and drained before canning. Vegetables should be precooked and packed hot for processing.

Use only perfect jars which have no nicks, cracks or sharp edges that might prevent an air-tight seal. It is an economy to purchase new rubber rings self-sealing lids each year. screw bands are used, be sure they are free from bends or rust.

SMALL BATCHES

Have all your equipment cluding jars and caps ready sparkling clean, and put water for processing on to heat, before you start preparing the fruits or vegetables. Work with small batches at a time and waste no time between steps in preparing, packing and processing.

Fruits and tomatoes (which are acid) should be processed in boiling water bath. The open kettle method of cooking the fruit, packing it into hot jars and sealing them without processing is **not** recommended. This is because, when the food is transferred from kettle to jars, bacteria may get in and cause the food to spoil.

Most fruits have better flavor, color and texture when they canned in syrup, but they k just as well without sugar as with it. The amount of sugar you use should depend on your taste. If you wish to use a prepared syrup in place of part of the sugar, it is best to follow the instructions of the company who makes the syrup.

Step by Step, It's EASY to HOME CAN with DOME LIDS

SELECT PRODUCE
Fruits and vegetables must be strictly fresh and at the best stage for table use. Sort for size and color. Fruits must be firm-ripe.

EXAMINE JARS
Tops of jars must be free of nicks, cracks, rough spots, and sharp edges. Check lids and bands. Bent lids, and rusty or warped bands won't seal.

WASH JARS
Wash jars in warm soapy water. Rinse. Cover with hot (not boiling) water. Keep hot until needed.

SCALD DOME LIDS
Pour boiling water over Dome Lids. Leave in the water until needed..

WASH PRODUCE
Wash produce clean. Lift out of water. Rinse and drain before preparing.

PREPARE FRUIT
Prepare fruits and vegetables according to the recipe used. Get ready only enough for one canner load at a time.

FILL JARS
Leave ½ inch headspace for fruits, tomatoes, and most vegetables; 1 inch for corn, peas, and shelled beans. Cover with hot liquid. Run knife down inside jar to release air.

PUT ON LIDS
Wipe top of jar clean. Place hot, wet Dome Lid so that red sealing compound rests on top of jar. Screw metal band tight to hold lid firmly against jar.

PUT JARS IN CANNER
Place jars of fruit and tomatoes on rack in water bath; low-acid vegetables in steam pressure cooker.

COOL JARS
After processing, take jars out of canner. Stand them out of a draft and several inches apart to cool. Do not put on cold surface and do not tighten the bands.

REMOVE BANDS
After jars have cooled ten to twelve hours, take the bands off and leave them off.

TEST SEAL
Be sure to test the seal by pressing the center of the Dome Lid with finger. If Dome stays down jar is sealed.

Citrus Pectin Big Aid to Home Canning

In times like these every saving counts. This is especially true in jam and jelly making in which expensive fruit and sugar play such a large part. It just doesn't pay to take chances, when all you have to do to assure successful jams and jellies is to use dependable powdered citrus pectin you can get at any grocers. A 3½-oz. package of this popular powdered pectin, takes the guesswork out of jam and jelly making, because every recipe has been thoroughly tested, and all you have to do is follow the directions carefully and exactly.

Besides, you get more glasses of the finest-flavored, finest-textured jam or jelly in less time, and with less work, than ever before. This tried-and-true powdered citrus pectin is the least expensive item in making your jam and jelly, but it is by far the most important, for it is what enables you to be sure of perfect results every time, and avoid the heartaches of having costly fruit and sugar fail to jell.

TWO CANNING DELIGHTS

SWEET PICKLED PEACHES

8 cups sugar
2 cups vinegar
2 cups water
1 3-inch stick cinnamon
1 tablespoon whole cloves
2 small pieces ginger root
2 blades mace
7 pounds small freestone peaches

Combine sugar, vinegar, water and whole spices; cook 5 minutes. Scald peaches, dip in cold water and peel. Pack in hot sterilized jars. Pour hot syrup over peaches to ½ inch of top. Seal.

CHERRY CONSERVE

2½ pounds sweet cherries
7 cups granulated sugar
1½ cups chopped seedless raisins
2 teaspoons grated lemon peel
6 tablespoons lemon juice
Dash of salt
1 bottle liquid pectin
1 cup blanched almonds, cut lengthwise

Wash and pit cherries; crush, grind, or chop coarsely enough to make 4 cups. Mix well with sugar, raisins, lemon peel and juice, and salt in large saucepan. Stirring constantly, heat to full, rolling boil and boil hard 1 minute. Remove from heat, stir in pectin and almonds. Stir and skim by turns for 5 minutes, then ladle quickly into hot glasses. Paraffin at once. Makes 13 6-ounce glasses.

Home Canners—
Be SURE of a SEAL!

you know with the "Touch-Test"

There's no guess-work with Ball Dome Lids—when the Dome is down the jar is sealed—just *PRESS-TO-TEST*. Save time and money, use Ball Dome Lids instead of old-fashioned "flat-top" caps. This season, be sure, buy Ball home canning supplies.

Ball

FREE "How to Save by Home Canning" booklet is yours—simply send post card to:

BALL BROTHERS COMPANY of CALIFORNIA, Inc.
DEPT. A, EL MONTE, CALIFORNIA

Home Canning

(Continued From Page 4)

all vegetables except tomatoes, should be processed in a steam pressure cooker or canner with an accurate pressure gauge. This is the **only** safe and sure method because a higher temperature than boiling is needed to destroy bacteria which cause spoilage in these canned foods. A small amount of salt added to the vegetables usually gives them a better flavor, but makes no difference in how well they keep.

Canned food should never be tasted if there is the slightest possibility that it is spoiled. Home-canned vegetables should always be boiled for 15 minutes before they are tasted.

FREE BOOKLETS

Various companies have excellent instruction books giving time tables for home canning. You can also write to the Department of Information, United States Department of Agriculture, Washington, D. C., for the pamphlet on "Home Canning of Fruits and Vegetables." There is also one available on "Home Canning of Meat."

Handsome Steak

It's moderate cooking temperatures for handsome broiled steaks, say the experts. Place a steak on the broiler rack so that its top surface is two to three inches from the heat. Wait until the top side is browned, season, then turn and cook on the second side, season and serve immediately.

So Easy to Make by Anyone!

Made in Minutes with Sure, Economical
M.C.P. Jam and Jelly PECTIN

(For 1 Recipe)

HERE'S WHAT YOU BUY! 3 quarts (3 lbs.) fully ripe berries...any variety; 4 lbs. sugar; 1 package M.C.P. Pectin; 14 seven-ounce glasses; paraffin; 2 lemons or M.C.P. Lemon Juice for **Strawberry Jam** and **Black Raspberry Jam.**

HERE'S WHAT YOU DO!

1. Wash, stem, and grind berries, or crush layer at a time so each berry is reduced to pulp.
2. Measure **exactly** 6 level cups crushed berries into large kettle. Add water to fill out last cup, if necessary. (NOTE: For **Strawberry Jam** and **Black Raspberry Jam** use 5¾ cups crushed berries and ¼ cup fresh or M.C.P. Lemon Juice.)
3. Add M.C.P. Pectin, stir well, bring to boil, stirring constantly.
4. NOW, add 8½ **level** cups sugar **(previously measured)**, mix well, bring to full rolling boil. BOIL EXACTLY 4 MINUTES.
5. Remove from fire, let boil subside, stir and skim by turns for 5 minutes.
6. Pour into sterilized glasses, allowing ½-inch space for sealing with fresh paraffin.

HERE'S WHAT YOU GET!

PLANNERS HEED WOMEN'S PROTEST

The controversial request to locate a $50,000 trailer court at the mouth of Niles Canyon was rejected Wednesday by the County Planning Commission.

The turndown climaxed weeks of seesawing, with the Niles Women's Club opposing the project, and the Niles Merchants Association and Chamber of Commerce favoring it. The women for five years have campaigned for a public park on the site.

At Wednesday's session in Oakland, the commissioners unanimously denied the petition to establish the court, which was presented by E. C. Thomas, steel mill executive. County laws now require commission approval for trailer courts.

Commissioner Harry Melvin commented that a petition against the court, presented by Mrs. Edna Overacker, contained 76 names. Said Melvin:

"There is ample indication that many local people do not think a trailer court is desirable for the community, and I am inclined to agree.

"It is important that the entrance to the Canyon be developed for recreation." Then Melvin moved to deny Thomas' application and a swift 5-0 vote spelled an end to the court.

Thomas said he will abandon the sheme. He had leased 7.9 acres behind the old Vallejo Flour Mill for the enterprise. The land is owned by the City of San Francisco.

However, Mrs. Overacker told the commission the women's club wants not only the mill as a historic monument, but also wants the 7.9 acres for recreation "for boy and girl scouts." She hinted San Francisco will permit the use of the site for a park. Thomas said in his dealings with S. F. officials they have signified they will not.

W. D. Patterson, president of the Alameda County Water District, appeared to offer the district's services as an intermediary "until some local agency" (unnamed) makes a park out of the site.

Patterson said he thought the district could "advance the necessary funds." But Deputy District Attorney Richard Moore countered he does not believe so, since the district can acquire land only for primary purposes of flood control.

Mrs. Laura Whipple also warned a trailer court near the Niles Canyon Road intersection would present a safety hazard. But Thomas retorted:

"Absurd . . . if it's dangerour for a trailer court, then why not more so for a park where children would have to cross the highway?"

Last week the Niles Merchants voted 47-2 to back the court, saying it would provide needed housing and bring more business to Niles. Also backing the project on Tuesday was the Niles Cham-

ts to straighten out the irk- Township precinct jumble being made by County offi- is week.

am Koerner, in charge of ation for County Clerk J. agston, told the Irvington er of Commerce:

He will place a large pre- map in the County Build- Centerville so voters can themselves in precincts e map, then notify his

will hand photostat copies map to all local volunteer rs so they can do the same. ner appeared the day pre- with Supervisor Chester E. at the Centerville Cham- ncheon. The visit was in e to complaints that some had to travel as much as les to ballot on June 3. ner told both audiences much of the trouble arises because voters neglect to put their street locations on their registration cards. They use post-office box numbers for addresses, he said.

This raised the thorny topic of street names and numbers, one which several civic groups have attacked recently. Eugene Manning of Centerville suggested again a Township-wide system of house numbers would help.

"They're numbered now by the different fire departments and the PG&E," Manning complained.

Stanley replied this is a job for the Planning Commission — one however that was undertaken six months ago in Livermore. The supervisor suggested the local body take the issue up with the Township Chamber of Commerce to request the re-naming and re-numbering on an area basis.

Both Centerville and Irving- to agreed to do so.

Koerner said the trouble stems back to 1924, when the county accepted streets and roads with whatever names and numbers they had at the time.

mum local effort to get adequate schools."

MOUGHON FACING 4 MANSLAUGHTERS

Ray L. Moughon, 45, of Niles, driver of the car which killed four San Jose motorists on the highway at Niles June 15, this week was charged with four counts of felony manslaughter.

Moughon is free on $200 bail and will appear Tuesday for arraignment before Judge Manley Clark in Centerville.

If convicted, Moughon faces a possible 40-year prison term.

WOMEN ORGANIZE

"Women for Better Government" is the name adopted for a group of non-partisan township women.

The women, representing Livermore, Pleasanton, and Washington Township, elected Mrs. Harold Korell, Niles, temporary chairman.

Next meeting will be July 16.

FAIR ENTHUSIAST . . . Bill Tyson, 10, Niles 4-H Clubber, shows his organization's Alameda County Fair exhibit to Cathy Bradley, 20, 280 H Street, Niles. The Niles 4-H entry took runner-up honors. It represents (left) a modern, well-kept farm and (right) a run-down farm.

TV NEW

By LEO BOHANNO

One of television's argun filmed programs versus shows is the "flub" or which cannot be rectifie live show but which can inated later from a filmed of a p One fam which ha red mo once is t dental showing of an announcer, after praising a certain brand of beverage and thinking he was "off camera," carelessly pouring the beverage into a waste basket instead of drinking it as he should have done. Then there's the case of a dramatic moment of a mystery thriller when the heroine tiptoed up to a door behind which the villian might be waiting . . . only to reveal, when the door opened slowly, a cameraman.

But the one we like is the story of the corpse in the bathtub on another thriller who raised his head above the bathtub's edge to see if he was still "on camera." He was!

Then there's the chap we know who couldn't afford a television set but keeps a phony aerial atop his house to fool the neighbors.

It pays to buy from a dealer who knows television . . . and upon whose judgment you can rely. We have the finest in sets . . . and top service for your installation and repairs. We're always proud to serve you at

CALIFORNIA Fashions

I Love COTTON!

How About You?

By HELEN WEILL, Fashion Editor

"Oh, to be in California, now that summer's here" hasn't been put to music yet, but I'm all for having it done. . . . Aren't you? Just now a lazyin' in the sun, back in our west garden, all dressed up, or rather dressed down, in the newest sun-cotton suit in town I found myself playing a new game. . . .

It's one you'll like too, cause it's all about cotton . . . and unless you fail to think that cotton is a summer "must," you'll have a chance to win the game without half trying.

Of course, Cotton should be endemic to California, tho I doubt that we're quite first in production, we're mighty close to it . . . and remember that the very first cotton Queen was a Kern County gal.

HERE'S THE GAME

So here's the game scooped directly, from a big-time advertiser in the East. He asks: "Why do you love cotton" And all that you need to do is to start off with your almost never ending list . . . He's goes something like this:

I love COTTON because:
cotton is fresh
cotton is cool
cotton is crisp
cotton is airy
cotton is starchy
cotton is soft
cotton is smooth
cotton is light
cotton is bright
cotton is washable
cotton is easy-to-iron
cotton is sturdy
cotton is silky
cotton is pretty
cotton is colorful
cotton is casual
cotton is gala
cotton is countrified
cotton is citified
cotton is haute couture
cotton is feminine
cotton is tailored
cotton is thrifty
cotton is King

NOT BAD LIST

Not a bad list for an expert. Is it? Though no doubt, being a California gal, you can do him one or more better. Come on, let's see, who can give the best list for California Cotton comps'.

But truly, when you realize what cotton does, it takes your breath away . . . In fact, I can't think of a place where cotton can not be used. Can You??

What with shoes, bags, gloves, hats, formals, and dainty undies, cotton does go every where. And is coming into its own as an all season fabric—which is something! Surely Grandma-ma can recall when cotton was for home only, possibly as a house dress, but other wise unseen, or unmentionable—in those great big voluminous bloomers . . . Oh, me—for bloomer days again!

STATE FAIR

And—if you're one of the lucky ones who is going to the State Fair, be sure to be on the look-out for Cotton at the California Fashion and Fabric Exposition.

This will be a terrific show, not only made up of manufacturers in California, but this is the only one that is open to out-of-the-state exhibitors. Folks, like you and I, are so interested in the new fabric creations, such as the Everglaze that I chatted about recently; that the division has had to be enlarged. Textile manufacturing in California alone, is something to talk—and talk about.

PAGEANT NIGHTLY

The pageant will be staged at 8:45 each evening for eleven nights. The winning entries will be modeled by beautiful professionals. and don't forget this pageant is one of the few "for free" shows of the Fair.

You'll see over 351 classe in 7 divisions. They include women's wear, infant's and childrens, girls apparel, boys, men's, shoes and of course, textiles . . . So you can make it family night for sure. The whole family will like to see what the well-dressed California wears!

CHEERIO, FOR NOW

If you're setting up your calendar now for Fall and Summer, remember that the 1952 California State Fair starts on August the 28th, and closes on September the 7th.

Maybe you think I'm a bit early in reminding you; but after all, such a show is something to wait for, and only the Calendar planning can make that possible.

Spose you'll see some of us from Magazine California, and if you do, be sure to let us know you too . . . Cheerio, for now.

SOMETHING NEW FOR THE KIDS!

NEW DUAL PURPOSE CHILD'S PLAY-TABLE. USE INDOORS OR OUTDOORS Factory to you savings of $$$. 9.75 tax incl., for table and 2 benches. Seat six children. Genuine Califfirone Redwood. Smooth washable finish. Light weight, easily moved, weather resisting, rugged playset the children will really enjoy. Receive playset within two weeks, freight collect. No COD's, please.

Cal Gal... WAVE

If you are between the ages of 18 and 25, then a career in the WAVES is well worth your careful consideration. Given good basic health and intelligence, plus an ability to get along well with others, today's smart young women are rapidly discovering that service life has much to recommend it. Pay is good. Security is high. Benefits are many. You may be assigned overseas duty. Typical of those who are discovering the WAVES to be a promising full-time career is Veronica Baker of Concord. A San Jose State College graduate and formerly with the Dow Chemical Company, Ensign Baker recently completed a 16-week indoctrination course at the Naval School in Newport, Rhode Island. Women first entered the USN in World War 1, when a few stenographers were taken on as "Yeomenettes." In World War II, the girls demonstrated that they had the skills and aptitudes for all sorts of work. Today there are 450 different jobs handled partly or entirely by WAVES. Communications, supply, aviation, general administration and, particularly, hospital work are sample openings. Other diversified types of jobs are added as fast as the Navy finds them appropriate and useful. If there is no recruiting office in your community, you can get details at your Post Office. Don't call the battleships "Cute."

In this feature, Magazine California each issue salutes a noteworthy California woman in a worthwhile profession.

Criswell Predicts

HOW TO MAKE MONEY AT HOME

Mrs. D. K. H. was left a widow with a heavily mortgaged house and well meaning friends who only pitied her but would not help. Mrs. H. decided to open a "fun home" not a "rest home" where aged people could live in harmony and happiness. The first thing she did was to advertise in the local papers, which she received six answers, and five of these paid in advance for one month. With this new money, she had her big house refixed like a "club" or a "summer resort," in nice new bright colors, including the walls, the upholstery and the light fixtures! Since that day, Mrs. H. has prospered, for she never allows bickering, and if the guest quarrels, a fine must be paid. All enter into this game to make each other's life more pleasant! No matter how grave your situation, there is a way out by increased income at home!

WATCH OUT FOR THIS FRAUD!

If you have children, beware! You are on a "sucker" list which spells being cheated if you are not careful! This man will contact you, telling you that your children are quite "unusual" or "beautiful" and he asked that he be allowed to take a "free" picture of them for a "magazine cover." You are naturally pleased, sign a "release" for the pictures to be printed, but you have also signed an order blank which binds you to buy three copies of each pose found suitable! These are sent you collect, and if you refuse them, strong arm tactics are used to get your money for very second rate pictures! If you want pictures, trade only at the well established and advertised photographer!

"FOR WOMEN ONLY"

The very latest in upholstery will be the new cherry red! You will find this used for the home, the office and even in automobiles! . . . A new health plan will soon make its appearance which will be designed for you women only! . . . The next cosmetic item will be a harmless dye for the eyebrows and lashes, which will permit you to brush it on like mascara, and it permanently colors the hair! . . . Paris chemists have perfected a new shampoo which will color, clean and curl the hair all at the same time! Look for this to be introduced to the American market by late summer! . . . The new rugs will depend heavily on the floral pattern for designs, with the new shadow weave becoming most popular in 1953! . . . You will wear slacks of satin, velvet, simulated fur and simmersilk for formal occasions very soon!

Sea shell beads, earrings, and pins will come back into fashion! . . . The new liquid type of instant coffee will be used to great advantage in the flavoring of cakes, ice creams and candies! . . . a new lemon base extract can be added to tall cooling drinks for that extra taste! . . . A new instant pudding, which is pre-cooked, and all you need to do is to add water and serve! . . . The next delicate importation will be actual native spaghetti and meat balls from Italy, freshly frozen in Genoa! . . . You will be very pleased by the new contour foundation garments, which restrain yet allow body freedom! . . . The new opera length nylons will have small coin pockets tastefully inserted at the knee of the right hose! . . . For reducing, drink one glass of clear gelatin one-half hour before meal time!

White Wash . .

(Continued from Page 3)

of six pounds of whiting, one pound of Casein spreader, one-third pint of raw linseed oil. Combine the whiting and Casein spreader with sufficient water to make a thin paste. When this is well mixed, add the raw linseed oil. This is best applied with a brush rather than by sprayer.

In all of this work in your endeavor to protect your tree from sunburn apply the whitewash right down to ground level. Brush the whole trunk, pack the soil lightly around the base and splash your whitewash all around. If the soil around the tree has not been settled by rain or an irrigation, additional bark may be exposed the first time that the soil is wet. It would be better to have the ground thoroughly settled before whitewashing.

Of course, should a wetting rain fall right after you have whitewashed your trees, don't be afraid to do the job over again.

Among California's most important nonmetallic mining products are cement, sand and gravel, clay, stone, and boron minerals.

...er told both audiences much of the trouble arises because voters neglect to put their street locations on their registration cards. They use post-office box numbers for addresses, he said.

This raised the thorny topic of street names and numbers, one which several civic groups have attacked recently. Eugene Manning of Centerville suggested again a Township-wide system of house numbers would help.

"They're numbered now by the different fire departments and the PG&E," Manning complained.

Stanley replied this is a job for the Planning Commission — one however that was undertaken six months ago in Livermore. The supervisor suggested the local body take the issue up with the Township Chamber of Commerce to request the re-naming and re-numbering on an area basis.

Both Centerville and Irving... to agreed to do so.

Koerner said the trouble stems back to 1924, when the county accepted streets and roads with whatever names and numbers they had at the time.

PLANNERS HEED WOMEN'S PROTEST

The controversial request to locate a $50,000 trailer court at the mouth of Niles Canyon was rejected Wednesday by the County Planning Commission.

The turndown climaxed weeks of seesawing, with the Niles Women's Club opposing the project, and the Niles Merchants Association and Chamber of Commerce favoring it. The women for five years have campaigned for a public park on the site.

At Wednesday's session in Oakland, the commissioners unanimously denied the petition to establish the court, which was presented by E. C. Thomas, steel mill executive. County laws now require commission approval for trailer courts.

Commissioner Harry Melvin commented that a petition against the court, presented by Mrs. Edna Overacker, contained 76 names. Said Melvin:

"There is ample indication that many local people do not think a trailer court is desirable for the community, and I am inclined to agree.

"It is important that the entrance to the Canyon be developed for recreation." Then Melvin moved to deny Thomas' application and a swift 5-0 vote spelled an end to the court.

Thomas said he will abandon the sheme. He had leased 7.9 acres behind the old Vallejo Flour Mill for the enterprise. The land is owned by the City of San Francisco.

However, Mrs. Overacker told the commission the women's club wants not only the mill as a historic monument, but also wants the 7.9 acres for recreation "for boy and girl scouts." She hinted San Francisco will permit the use of the site for a park. Thomas said in his dealings with S. F. officials they have signified they will not.

W. D. Patterson, president of the Alameda County Water District, appeared to offer the district's services as an intermediary "until some local agency" (unnamed) makes a park out of the site.

Patterson said he thought the district could "advance the necessary funds." But Deputy District Attorney Richard Moore countered he does not believe so, since the district can acquire land only for primary purposes of flood control.

Mrs. Laura Whipple also warned a trailer court near the Niles Canyon Road intersection would present a safety hazard. But Thomas retorted:

"Absurd . . . if it's dangerour for a trailer court, then why not more so for a park where children would have to cross the highway?"

Last week the Niles Merchants voted 47-2 to back the court, saying it would provide needed housing and bring more business to Niles. Also backing the project on Tuesday was the Niles Cham-

MOUGHON FACING 4 MANSLAUGHTERS

Ray L. Moughon, 45, of Niles, driver of the car which killed four San Jose motorists on the highway at Niles June 15, this week was charged with four counts of felony manslaughter.

Moughon is free on $200 bail and will appear Tuesday for arraignment before Judge Manley Clark in Centerville.

If convicted, Moughon faces a possible 40-year prison term.

WOMEN ORGANIZE

"Women for Better Government" is the name adopted for a group of non-partisan township women.

The women, representing Livermore, Pleasanton, and Washington Township, elected Mrs. Harold Korell, Niles, temporary chairman.

Next meeting will be July 16.

FAIR ENTHUSIAST . . . Bill Tyson, 10, Niles 4-H Clubber, shows his organization's Alameda County Fair exhibit to Cathy Bradley, 20, 280 H Street, Niles. The Niles 4-H entry took runner-up honors. It represents (left) a modern, well-kept farm and (right) a run-down farm. (Register Photo)

TV NEV

By LEO BOHANNOI

One of television's argum filmed programs versus shows is the "flub" or which cannot be rectifie live show but which can b inated later from a filmed

of a pi One famo which has red mor once is th dental showing of an announcer, after praising a certain brand of beverage and thinking he was "off camera," carelessly pouring the beverage into a waste basket instead of drinking it as he should have done. Then there's the case of a dramatic moment of a mystery thriller when the heroine tiptoed up to a door behind which the villian might be waiting . . . only to reveal, when the door opened slowly, a cameraman.

But the one we like is the story of the corpse in the bathtub on another thriller who raised his head above the bathtub's edge to see if he was still "on camera." He was!

Then there's the chap we know who couldn't afford a television set but keeps a phony aerial atop his house to fool the neighbors.

It pays to buy from a dealer who knows television . . . and upon whose judgment you can rely. We have the finest in sets . . . and top service for your installation and repairs. We're always proud to serve you at

Result of Skill

It takes real skill to land a twisting, fighting, whopping-big trout!

And it takes real skill to brew a truly fine pale beer.

Burgermeister is a truly fine pale beer —the Result of Skill!
